**World Cup Teams**

**MEN**  
Britain's men's team were disqualified from the 2002 World Cup because their entry for the meeting had been based on performances by Dwain Chambers at that year's European Cup which were subsequently annulled because of a doping violation. However, the individual placings by British team members in Madrid were allowed to stand, though are regarded by the IAAF as non-scoring.

\* This race was originally won in 10.75 by Marion Jones USA who in 2008 admitted to doping violations and was disqualified. Original silver medalist Katerina Thanou GRE has not been upgraded to gold medal status and remains silver medalist alongside Tanya Lawrence JAM who was promoted from bronze. In December 2009, the IOC spokesman Mark Adams explained that Thanou "disgraced herself and the Olympic movement by avoiding three doping tests ... she admitted anti-doping violations when she accepted a two-year suspension from the IAAF. The rankings in the actual race are a matter for the IAAF, and they are changed, but the actual awarding of any medal is not a right. Therefore, in this case, it will not happen. It is felt that with her conduct, she did not deserve to be honoured with this recognition."

\* The United States were initially disqualified by the IOC (in April 2008) for a doping violation by team member Marion Jones, but in July 2010 were reinstated as bronze medalists (without Jones) after a successful appeal by Jones's team-mates to The Court of Arbitration for Sport

# Crystal Cox, who ran in the heats for the winning team in 2004, was disqualified for doping violations dating back to November 2001 and her personal medal was withdrawn. Despite this, in June 2013, the IOC decided not to re-allocate the other medals awarded in this event

## Olympic Games Medal & Placing Tables

Here, points are awarded for the first eight placings in each event, with eight for Olympic gold down to one for 8th place. For ties, points are divided between the countries involved, so that for instance equal second place by two athletes is worth 6.5 points for each country. Points are only awarded for athletes who finished in the final, none are given to those who did not finish or were disqualified.

These tables now incorporate the placings and medals redistributed following the multiple individual disqualifications of Marion Jones in 2000 and 2004, including the case of the 2000 women's 100 metres where the IOC determined that two silvers and no gold would be awarded as noted on page 374. As further detailed on page 379 – and following the 2010 judgment of The Court of Arbitration for Sport – the US women still hold their relay gold (4x400) and bronze (4x100) medals from Sydney, in spite of Jones's contribution. Also adjusted are the 2008 men's 1500m (Rashid Ramzi BRN out) and the 2012 women's shot put (Nadezhda Ostapchuk BLR out).

In 2012, re-tests of samples from Athens 2004 led to four further IOC disqualifications – Yuriy Belonog UKR, Ivan Tikhon BLR, Svetlana Krivelyova RUS and Iryna Yatchenko BLR. The IOC confirmed the logical upgrades for the athletes finishing behind Belonog and Yatchenko, but the medals won by Tikhon (silver) and Krivelyova (bronze) have not been re-allocated as at June 30, 2013.

For the 2004 women's 4x400m relay, the IOC have finally ruled that the US women are not to be disqualified despite doping violation of heat runner Crystal Cox, so this is reflected in the tables below. Also shown is the original medal order for the 2012 women's Discus Throw (Perković CRO, Pishchalnikova RUS & Li CHN), because (as at June 30, 2013) the IOC have yet to confirm the re-allocation of medals following the IAAF's retroactive disqualification of Pishchalnikova's results dating back to May 2012.

- Incorporating two golds for Jim Thorpe (who was originally disqualified after winning the 1912 Pentathlon and Decathlon)
- In the years 1896-1920, Irish athletes competed with Great Britain. For the purpose of the tables, placings are combined with those from Great Britain & Northern Ireland (GBR). From 1924, Ireland (IRL) competed independently  
Incorporating silvers in 1900 200m flat & hurdles by Indian-born Norman Pritchard
- Australia, Great Britain & Ireland, France and the USA appear with fractions in the "Gold" and "Silver" columns. This is because teams of mixed nationalities won medals in the 1900 5000m Team Race (GBR/AUS) and the 1904 Four Miles Team Race (USA/FRA)
- Incorporating Australasian bronze in 1908 3500m walk

# NOTES

# WORLD AND CONTINENTAL RECORDS

(as at June 30, 2013)

**ABBREVIATIONS & KEY** (See also page 7)

**IAAF** = IAAF World Record; **IAAF-J** = IAAF World Junior Record; **W** = Unratified World Best; **WO** = World best in women-only race  
**WJ** = Unratified World Junior Best; **WY** = Unratified World Youth (under-18) Best; **W35** = World (Masters) over-35 best;  
**W40** = World (Masters) over-40 best  
**AFR** = Africa; **ASI** = Asia; **C** = Commonwealth; **CAC** = Central America & Caribbean (includes the countries with borders to Caribbean though not the USA); **EUR** = Europe; **NAM** = North America; **OCE** = Oceania; **SAM** = South America

**NOTES**

This section shows world, area, Commonwealth and age records (where known) for all events on the world record lists shown under IAAF rules 261 (world records) & 262 (world junior records)

**A** = made at altitude of 1000m or higher; **a** = aided road course according to IAAF rule 260.28 (separation between start and finish points more than 50% of race distance or the decrease in elevation greater than one in a thousand; South America do recognise additional marks in this category); **\*** = awaiting ratification but otherwise valid; **h** = hand timing; **!** = timing by photo-electric cell; **#** = not officially ratified; **X** = unrated due to no doping control; **♂** = mixed race (men and women together)

**♀** = women-only race (Shown for North America as the USA keep separate records in this category); **♁** = not timed officially

Where relevant, the pace is given for world record performances. Where known, the time given is that of the runner who set the record, rather than the pacemaker

From 1998, IAAF Rule 260.18a (formerly 260.6a) was revised to allow world records to be set at a facility "with or without a roof" (in other words, indoors or outdoors); Accordingly, indoor marks superior to outdoor records and set since 1998 (not 2000 as originally noted) are listed on these pages in addition to outdoor bests

Included are the individual road events which were given world record status from January 1, 2004. These feature many unrated, unofficial and unconfirmed marks for three main reasons. Firstly, most of the IAAF's area federations have not yet established records at these events. Second, several of the world's major long distance races do not take official times en-route for runners and finally – though the final distance not be regarded as aided (see note above) – the intermediate distance may well be. It should also be noted that some federations have ratified road records even though the marks were set on courses such as Boston which do not fulfill IAAF criteria. Any comments and amendments to these records will be gratefully received by the editor.

The following websites have been references for the area records: **Africa**: [www.webcaa.org](http://www.webcaa.org); **Asia**: [athleticsasia.org](http://athleticsasia.org); **Europe**: [www.european-athletics.org](http://www.european-athletics.org), they do not recognise many men's road marks; **South America**: [www.consudatle.org](http://www.consudatle.org); **United States**: [www.usatf.org](http://www.usatf.org); **North/Central American & Caribbean**: [www.athleticsnacac.org](http://www.athleticsnacac.org) – though not updated since 2011; **Central America & Caribbean**: [www.athleccac.org](http://www.athleccac.org) – though not updated since 2008. For **Oceania**, [www.athletics-oceania.com](http://www.athletics-oceania.com) did not publish a record list as at June 23, 2013, so the marks listed here are the best legitimate marks known by the editor

\* The birthdate of Kenneth (Kiprop) Kipkemoi KEN was misreported as August 5, 1994 but is apparently August 2, 1984, so his 59:11 Half Marathon (den Haag, 11 Mar 12) is not shown here as a world junior best. Similarly Dennis (Kipruto) Kimetto (Koech) KEN was variously reported to have been born on November 13, 1993 or January 22, 1994, but the compiler understands that January 22, 1984 is his correct birthdate so his 59:14 Half Marathon (Berlin, 1 Apr 12) should also not be regarded as a world junior best

# NATIONAL RECORDS

These lists mainly include official records as recognised by various national federations, with any superior statically valid marks which are not recognised listed in footnotes. In some cases, federations recognise as records illegal performances, such as wind-assisted sprints, javelin throws with old implement specifications, combined events scores on outdated tables and in the case of USATF, one performance by an athlete while proved guilty of a doping violation. In such cases the best statistically valid mark is given in the main list, though the ratified mark does appear in the footnotes.

No sprint or jump marks obtained with a following wind of more than 2 m/s are included, nor are any which were definitely unsubstantiated. However, performances in combined events which would under post-2010 IAAF rule 260.27 be regarded as wind-assisted are shown as legal as the rule change is not retrospective. Where known, all marks set up to June 30, 2013 are included. Those set in 2013 are given in bold characters.

Winfried Kramer

## NATIONALITIES

Caribbean and Pacific athletes with double nationality have been listed according to their eligibility at international championships, but such decisions are open to debate. Tahiti, formerly French Polynesia, accepts records by athletes who are of non-Polynesian origin and who were non-permanent residents. Ex-USSR Republics and former Yugoslav Republics accept records affiliated to domestic clubs. Vanuatu has decided to eliminate records by non-citizens before independence.

## AUTOMATIC TIMES

Following the policy of the IAAF, automatic times are given to hundredths of a second wherever possible. For sprint events, manual marks are listed only if they are least 0.24 seconds better than the automatic record. Please note that these marks are given for information only and may not be officially recognised by the respective federations. For 400m and 400m hurdles, automatic records only are given.

## FOOTNOTES

These are included for each event to explain the decisions of the compilers and to present problems they felt unable to solve. Asterisks are given against records where there is a relevant footnote for that country.

## RECORDS FOR SUSPENDED NATIONS

Records are listed for Cambodia and South Africa even though the performances may have occurred while those countries were suspended by the IAAF.

## EQUALLED RECORDS

Please note that some records equalled by the same athlete or country may not have been included due to the policy of the federation.

## ILLEGITIMATE MARKS

Some countries have chosen to ratify records which the IAAF would regard as illegal because of doping violation or wind assistance. These have been relegated to footnotes with the best legitimate mark given in the main list. However, ratified records set by women in mixed races are shown in the main list with the best non-mixed mark footnoted.

## IAAF RULE 260.18.a

The 1998 change to this rule (formerly 260.6a) – which allows indoor marks to be recognised as “absolute” records – has been reflected in these lists, though it should be noted that most federations have not taken account of the revision so far. Those who have are AUS, DOM, ESP, EST, FRA, LTU, POL & SLO. For other federations, where relevant, separate listings are given of those indoor performances (set both before and after 1998) which are superior or identical to the recognised mark.

## IAAF RULE 260.27

The 2010 change to this rule means that a combined event performance is regarded as wind-assisted – for record purposes – if the average assisting wind velocity for the three affected events exceeds two metres per second. Previously it was the case that the score would be legal if that condition applied and/or none of the three relevant following “winds” exceeded four metres per second. The narrowing of the criteria means that some existing records (e.g. Larisa Nikitina’s Russian Heptathlon record of 7007, with winds of 1.4, 1.1 & 4.0) would be judged as windy under today’s rule. It has been determined that this rule change should not be applied in retrospect, so such marks are shown as legal in this section. Note also that in March 2010, the IAAF Council added a caveat to the rule confirming that marks which are windy only under the new ruling – though not acceptable as records – can still count as qualifying marks for championships.

Confusion has inevitably been caused by these changes, so now we have a wind-assisted Trinidadian decathlon record which was mistakenly ratified against IAAF rules of the time but would have been okay under the current ruling. Similarly there was a 2009 mark which cannot be regarded as the Antiguan record because it was windy under the old rule, but would be perfectly valid nowadays.

# NOTES

## PROGRESSION OF OFFICIAL WORLD RECORDS

This section lists progressive world record performances as ratified by the IAAF or the Fédération Sportive Féminine Internationale (FSFI), which was absorbed by the IAAF in 1936. Though the IAAF was founded in 1912, its first list of world records contained marks which were set as early as 1870.

### AUTOMATIC TIMING

From 1975, the IAAF accepted separate, automatic electrically timed records for events up to and including 400m. From 1977 only automatic timing was considered for world records in these events. Automatic timing to hundredths was accepted for events up to and including 10,000m from 1981. Where known, unofficial automatic times are given – in a smaller typeface – next to the ratified “tenth” time. Ratified automatic times are always given in larger type.

### INDOOR WORLD RECORDS

From 1998, IAAF rule 260.18a (formerly 260.6.a) was amended to state that world records (as opposed to indoor world records) can be set at a facility “with or without” a roof. So far only one event – the women’s pole vault – has been affected by this change, which was not applied retrospectively. Therefore world indoor records set in 2000 and 2001 by Stacy Dragila and Svetlana Feofanova are regarded as “absolute” and appear in these lists.

A similar rule change occurred in the late 1980s, when the 2.42 high jump of Carlo Thränhardt (FRG), made indoors, was accepted as equalling the existing world (outdoor) record. However after that version of the ruling was rescinded, this mark was subsequently deleted as a world record and is not included in this section.

### ROAD RECORDS

From January 1, 2004 the IAAF has recognised official world records at 10Km, 15Km, 20Km, Half Marathon, 25Km, 30Km, Marathon, 100Km, Road (Ekiden) Relay and also the 20Km and 50Km Walks. Progressions are also given here for best performances in the road running and walking events prior to their acceptance as official world record events.

### OMISSIONS

Except for road events, excluded from this section are unrated marks, performances which were originally accepted as world records then annulled, and indoor-only world records.

The data in this section is based on “Progression of World Best Performances and Official World Records”, edited on behalf of the IAAF originally by Richard Hymans and then Imre Matrahazi.

### Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. Listed is the progression of world bests prior to official acceptance and superior unrated marks thereafter. Indented are marks set on uncertified or aided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Records ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances

## BEST THREE BY YEAR 1963-2012

These listings show the top three performers in championship events, the Mile and the 3000m each year for the past 50 years. Up to 1977 for sprints, electrically and hand-timed marks have been mixed using the then accepted adjustments of 0.24 for 100/200m and 0.14 for 400m. So for example, Hayes's 10.06 is ranked above Esteves 10.0 hand in 1964. Times for 120 yard, 440 yard and 880 yard races have been amended respectively by margins of 0.03, -0.26 and -0.6 in order to allow meaningful comparisons with their metric equivalents. Times which have been adjusted in this manner are asterisked. For the jumps and shot put, indoor marks are shown.

# NOTES

# WORLD ALL-TIME LISTS

Included here are top 30 lists in all World Championship events and top 10s (where there are 10 significant performances) in the remaining events having IAAF World record status according to IAAF rule 261. Those competing with distinction under two or more names are denoted with the symbol "◊" and listed on page 10.

Where possible the country of origin of athletes representing the former Czechoslovakia, USSR or Yugoslavian states is given (Lists as at June 30, 2013)

### Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. From January 1, 2012 the IAAF specified that "world records in road races for women [were] to be recognised in women only races", though before that rule was enforced it was decided not to apply it in retrospect, so all existing world records (set in mixed races) remained standing. The best women only marks are listed from page xxx. Listed is the progression of world bests prior to official acceptance and superior unratified marks thereafter. Indented are marks set on uncertified or unaided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Record ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances.

# NOTES

## BEST THREE BY YEAR 1963-2012

See men's section (page 645) for general notes. In some of the newer disciplines, the start year is later due to the lack of meaningful performances as the event was under development.

# BIOGRAPHICAL SUMMARIES

Here are summarised biographies of 260 of the world's leading athletes – in alphabetical order – who are likely to be leading contenders at the 2013 World Championships. The athletes's name, birthdate, country and principal events are shown along with their personal bests (in bold for key events), their most significant achievements (international then domestic) and other data. The athlete's main achievement is summarised in the first lines after their name. Heights and weights are shown where most relevant. All individual champions from Daegu 2011, London 2012 and the 2012 Diamond Race winners are included except for those known to be unavailable for Moscow. Educated guesses have been made for the Ethiopian marathon selections. Performances set up to July 9, 2013 are included, which was during the World Student Games in Kazan.
