

Preliminary Final report

AMCOR LIMITED
ABN 62 000 017 372

1. Details of the reporting period and the previous corresponding period

Reporting Period: Year Ended 30 June 2017

Previous Corresponding Period: Year Ended 30 June 2016

2. Results for announcement to the market

				<i>US\$ million</i>
2.1 Revenues from ordinary activities	Down	3.4%	to	9,101.0
2.2 Profit from ordinary activities after tax but before significant items, attributable to members	Up	4.5%	to	701.2
2.3 Net profit for the period attributable to members	Up	144.6%	To	597.0

Dividends	Amount per security	Franked amount per security
<i>Current period</i>		
2.4 Final dividend	23.5 US cents	nil
2.4 Interim dividend	19.5 US cents	nil
<i>Previous corresponding period</i>		
2.4 Final dividend	22.0 US cents	nil
2.4 Interim dividend	19.0 US cents	nil
2.5 Record date for determining entitlements to the dividend	Final dividend – 5 September 2017	

2.6 Brief explanation of figures in 2.1 to 2.4 –:

- i) Refer to page 10 of attached press release for further comments specifically related to 2.2.
- ii) Dividends in the current period are unfranked. Dividends are sourced from the parent entity's Conduit Foreign Income Account. As a result, 100% of the dividend paid to a non-resident will not be subject to Australian withholding tax.
- iii) Refer to attached press release for further details relating to 2.1 to 2.4.

3. Income Statement and Statement of Comprehensive Income – Refer attached**4. Statement of Financial Position – Refer attached****5. Statement of Cash Flows – Refer attached****6. Statement of Retained Earnings – Refer attached, Note 3.6 Reserves**

7. Details of individual dividends and payment dates – Refer attached, Note 1.2 Dividends

8. Details of dividend reinvestment plan

The Dividend Reinvestment Plan (DRP) is in operation. No discount has been offered under the DRP. The Issue price for shares allotted under the DRP will be calculated on the arithmetic average of the weighted average market price for the nine ASX trading days from September 8 to 20, 2017 inclusive. The last date for receipt of election notices for the DRP is 6 September 2017. Shares allotted under the DRP rank equally with existing fully paid ordinary shares of Amcor Limited.

9. Net tangible assets

	Current period	30 June 2016
Net tangible asset backing per ordinary security	(US\$1.43)	(US\$1.18)

10. Control gained over entities having a material effect – Refer attached, Note 4.1 Businesses Acquired

11. Details of associates and joint venture entities – Refer attached, Note 4.2 Equity Accounted Investments

12. Significant information – Refer press release attached

13. For foreign entities, which set of accounting standards is used in compiling the report – Not applicable

14. Commentary on results for the period – Refer press release attached

15. This report is based on accounts which have been audited. The audit report, which is unmodified, will be made available with the Company's financial report, which also contains the Director's Report (including the audited Remuneration Report) and Director's Declaration. These will all be released at the same time as part of the Company's Annual Report which is nearing completion and will be released on approximately 27 September 2017.

Julie McPherson
Company Secretary

Date: 22 August 2017

Cash and cash equivalents at the beginning of the financial period		513.4	697.5
Effects of exchange rate changes on cash and cash equivalents		(13.5)	(159.6)
Cash and cash equivalents at the end of the financial period⁽¹⁾		557.7	513.4

⁽¹⁾ Refer note 3.2 for details of the financing arrangements of the Group.

Reconciliation of cash and cash equivalents

For purposes of the cash flow statement, cash and cash equivalents includes cash on hand and at bank and short term money market investments, net of outstanding bank overdrafts. Cash and cash equivalents as at the end of the financial year as shown in the cash flow statement is reconciled to the related items in the statement of financial position as follows:

Cash and cash equivalents	3.2	561.5	515.7
Bank overdrafts	3.2	(3.8)	(2.3)
Cash and cash equivalents at the end of the financial period		557.7	513.4

Bank overdrafts are repayable on demand and form an integral part of the Group's cash management, they are included as a component of cash and cash equivalents for the purpose of the cash flow statement.

The above cash flow statement should be read in conjunction with the accompanying notes.

Section 1: Key performance metrics

In this section

This section provides insight into how the Group has performed in the current year, with the headline results being:

- Basic earnings per share (EPS) was US cents 51.6, up 145.7%⁽¹⁾
- Annual dividend of US cents 43.0 per share, up 4.9%
- Profit after tax attributable to the owners of Ancor Limited of USD 597.0 million, up 144.6%⁽¹⁾

⁽¹⁾ After significant items (refer to note 1.4).

1.1 Earnings per share

	2017	2016
EPS for profit attributable to the ordinary equity holders of Ancor Limited	US Cents	US Cents
Basic EPS	51.6	21.0
Diluted EPS	51.1	20.7
Profit attributable to the ordinary equity holders of Ancor Limited (USD million)	597.0	244.1
Weighted average number of ordinary shares for basic EPS (shares, million)	1,157.2	1,162.2
Weighted average number of ordinary shares and potential ordinary shares for diluted EPS (shares, million)	1,167.7	1,177.3

Calculation methodology

Basic earnings per share (EPS) is the profit after tax attributable to ordinary equity holders of Ancor Limited, divided by the weighted average number of ordinary shares during the year. Shares held by the Share Trust (refer to note 3.5) are excluded.

Diluted EPS is calculated on the same basis except that it includes the impact of any potential commitments the Group has to issue shares in the future. In 2017, this dilutive potential from employee options and performance rights is 10.5 million shares (2016: 15.1 million shares).

Between the reporting date and the issue date of these financial statements, there have been no transactions involving ordinary shares or potential ordinary shares that would impact the calculation of these EPS figures.

1.2 Dividends

	2017			2016		
	US Cents per share	Total amount USD million	Date of payment	US Cents per share	Total amount USD million	Date of payment
Interim	19.5	225.9	24 March 2017	19.0	220.2	22 March 2016
Final ^{(1),(2)}	23.5	272.2	28 September 2017	22.0	254.8	29 September 2016
Total	43.0	498.1		41.0	475.0	

⁽¹⁾ Estimated final dividend payable, subject to variations in number of shares up to record date. This dividend has not been recognised as a liability as at 30 June 2017 and will be recognised in subsequent consolidated financial statements.

⁽²⁾ Estimated final 2016 dividend amount was USD 254.8 million.

Franking credits and conduit foreign income account

There are insufficient franking credits available for distribution from the franking account. For the dividend payable on 28 September 2017, 100% of the dividend to non-residents is sourced from the parent entity's Conduit Foreign Income Account (2016: 100%). As a result, 100% of the dividend paid to a non-resident will not be subject to Australian withholding tax.

Amcor Limited and its controlled entities

Financial Report

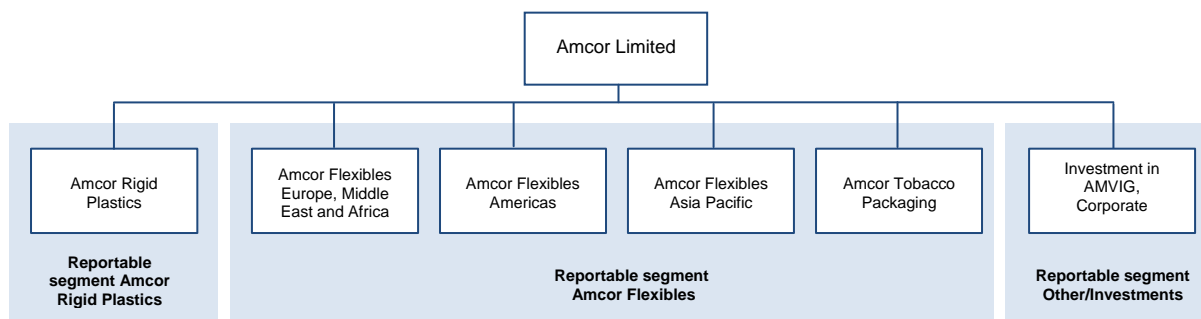

Notes to the financial statements

Section 1: Key performance metrics

30 June 2017

1.3 Segment performance

Amcor is a global market leader in its industry with the following operational structure and reportable segments:

Reportable Segment	Operations
Amcor Rigid Plastics	Manufactures rigid plastic containers for a broad range of predominantly beverage and food products, including carbonated soft drinks, water, juices, sports drinks, milk-based beverages, spirits and beer, sauces, dressings, spreads and personal care items and plastic caps for a wide variety of applications.
Amcor Flexibles	<p>This reporting segment represents the aggregation of four operating segments of which each manufactures flexible and film packaging for their respective industries. The operating segments are:</p> <ul style="list-style-type: none"> The Amcor Flexibles Europe, Middle East & Africa business which provides packaging for the food and beverage industry including confectionery, coffee, fresh food and dairy and pet food packaging. The Amcor Flexibles Americas business produces flexible packaging for customers in the medical and pharmaceutical, fresh produce and snack food segments. Amcor Tobacco Packaging which manufactures flexible packaging for specialty folding cartons for tobacco packaging and other industries. Amcor Flexibles Asia Pacific which provides packaging for the food and beverage industry including confectionery, coffee, fresh food and dairy and packaging for the pharmaceutical and home and personal care. <p>These operating segments share similar characteristics as they are engaged in the printing and packaging of fast moving consumer products. Management believe that it is appropriate to aggregate these four operating segments as one reporting segment due to the similarities in the nature of each operating segment.</p>
Other/Investments	This segment holds the Group's equity accounted investments in the associate AMVIG Holdings Limited (AMVIG). AMVIG is principally involved in the manufacture of tobacco packaging. This segment also includes the corporate function of the Group.

Segment disclosures are consistent with the information reviewed by Amcor's chief operating decision makers, the Group Management Team (GMT). The GMT consists of the Managing Director and Chief Executive Officer and his direct reports and provides strategic direction and management oversight of the day to day activities of the Group in terms of monitoring results, approving capital expenditure decisions and the strategic plans for the business.

Segment performance is evaluated based on operating profit before interest and tax and is measured consistently with profit and loss in the consolidated financial report, except for significant items (refer to note 1.4) which are excluded in the evaluation of segment performance. Group financing (including finance income and costs) and income tax are managed on a group basis and are not allocated to operating segments.

Section 1: Key performance metrics

30 June 2017

1.3 Segment performance (continued)

Product segment revenue

USD million	2017	2016
Containers, preforms and closures	2,876.7	3,357.3
Films and other flexible products	4,967.1	4,697.9
Specialty flexible folding cartons	1,257.2	1,366.1
Consolidated sales revenue	9,101.0	9,421.3

The Group does not have an economic exposure to any individual contract that is in excess of 10% of net revenue. However, from time to time a single customer, depending on the current status and volumes of a number of separate contracts in disparate locations, may account for approximately 10% of the Group's revenue.

Geographic segments

In presenting information on the basis of geographical segments, segment revenue is based on location of Amcor businesses:

USD million	2017	2016
Western Europe	2,778.0	2,915.3
North America	3,162.2	3,000.2
Emerging markets	2,700.0	3,049.9
Australia and New Zealand	460.8	455.9
Consolidated sales revenue	9,101.0	9,421.3

Revenues in Australia (Amcor's country of domicile) amounted to USD 335.6 million in 2017 (2016: USD 333.4 million).

Revenues in the United States of America and included within the North America geographical segment amounted to USD 2,976.6 million in 2017 (2016: USD 2,865.5 million) and represented more than 10% of the Group's revenue. There was no other individual country with more than 10% of the Group's revenue.

Non-current assets based on the location of the assets:

USD million	2017	2016
Western Europe	1,489.6	1,464.1
North America	1,980.3	1,731.8
Emerging markets	1,985.2	1,905.3
Australia and New Zealand	223.0	280.6
Consolidated non-current assets⁽¹⁾	5,678.1	5,381.8

⁽¹⁾ Non-current assets exclude retirement benefit assets, deferred tax assets and non-current financial assets.

Non-current assets in Australia amounted to USD 181.9 million (2016: 221.3 million). Non-current assets in the United States of America are USD 1,753.3 million (2016: USD 1,589.6 million) and included within the North America geographical segment represented more than 10% of the Group's non-current assets.

There was no other individual country with more than 10% of the Group's non-current assets.

1.3 Segment performance (continued)

Reconciliation of segment information to consolidated results

Segment receivables

USD million	2017	2016
Working capital receivables		
Total reportable segment working capital receivables	1,363.7	1,421.7
Financial instruments included for management reporting purposes	(6.2)	(11.6)
Other receivables excluded for management reporting purposes	47.7	1.5
Consolidated trade and other receivables (refer to note 2.1)	1,405.2	1,411.6

Segment payables

USD million	2017	2016
Working capital payables		
Total reportable segment working capital payables	(2,462.8)	(2,322.3)
Financial instruments included for management reporting purposes	3.6	9.9
Capital creditors and other payables excluded for management reporting purposes	(119.1)	(106.0)
Consolidated trade and other payables	(2,578.3)	(2,418.4)

Segment acquisition of property, plant and equipment and intangible assets

USD million	2017	2016
Acquisition of property, plant and equipment and intangibles		
Total consolidated reportable segment	379.2	348.9
Movement in capital creditors	19.0	(5.0)
Other non-cash adjustments	0.4	19.3
Consolidated acquisition of property, plant and equipment and intangibles⁽¹⁾	398.6	363.2

⁽¹⁾ Additions for the period exclude acquired balances through businesses acquired (refer to note 4.1).

1.4 Income and expenses

Income

USD million	2017	2016
Revenue from sale of goods	9,101.0	9,421.3
Other income:		
Net gain on disposal of property, plant and equipment	22.2	0.7
Net foreign exchange gains	3.9	5.9
Curtailment gains, settlements and plan amendments	30.0	8.6
Rebates, incentives and claims	4.2	9.7
Other ⁽¹⁾	35.2	67.3
Total other income	95.5	92.2
Finance income ⁽²⁾	12.2	34.4
Total income	9,208.7	9,547.9

⁽¹⁾ Other is mainly made up of dividend income, bargain purchase on acquisition of business and government subsidies.

⁽²⁾ Finance income comprises interest income on funds invested and related to defined benefit plans.

Revenue from sale of goods

Revenue from sale of goods is recognised when risks and rewards of ownership transfer to the customer. Depending on customer terms, this can be at the time of despatch, delivery or upon formal customer acceptance. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, the costs incurred or to be incurred cannot be measured reliably, there is risk of return of goods or there is continuing management involvement with the goods.

Section 1: Key performance metrics

30 June 2017

1.4 Income and expenses (continued)

Expenses

The following specific expenses are included in the income statement:

USD million	2017	2016
Employee benefits expenses		
Wages and salaries	1,634.2	1,802.7
Workers' compensation and other on-costs	174.7	172.2
Retirement benefit funds	14.3	15.9
Superannuation costs - accumulation funds	39.9	39.8
Share based payments expense	26.5	24.2
Other employment benefits expense	8.4	14.9
Total employee benefits expense	1,898.0	2,069.7
Depreciation and amortisation	358.8	354.0
Finance expenses		
- Interest and borrowing costs	190.1	192.2
- Other	9.1	9.0
Total finance expenses	199.2	201.2
Rental expense relating to operating leases		
- Minimum lease payments	95.9	95.3
- Contingent rentals	5.5	5.7
Total rental expense relating to operating leases	101.4	101.0
Ongoing restructuring costs	6.8	10.2
Significant items		
One-off charge to eliminate exposure in Venezuela	-	384.7
Flexibles restructuring	135.5	94.9
Significant items before related income tax expense ⁽¹⁾	135.5	479.6
Tax benefit on significant items	(31.3)	(52.6)
Total significant items	104.2	427.0

⁽¹⁾ Significant items relate to the Flexibles restructuring and the elimination of the exposure in Venezuela in the prior year as announced on 9 June 2016. These expenses are included in general and administration expenses.

Finance expenses

Finance expenses comprise mainly interest expense on borrowings, interest costs related to defined benefit pension plans and amortisation of ancillary costs incurred in connection with the arrangement of borrowings. They are recognised in the income statement when they are incurred, except to the extent the expenses are directly attributable to the acquisition, construction or production of a qualifying asset. Such financing costs are capitalised as part of the cost of the asset up to the time it is ready for its intended use and are then amortised over the expected useful economic life.

Lease payments

Payments made under operating leases are recognised in the income statement on a straight-line basis over the term of the lease, while any lease incentive is recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding lease liability. The interest element of the finance cost is recognised in the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Financial Report

Notes to the financial statements

Section 1: Key performance metrics

30 June 2017

1.5 Taxation

This note provides an analysis of the Group's income tax expense, shows what amounts are recognised directly in equity and how the tax expense is affected by non-assessable and non-deductible items.

Key judgements and estimates

The Group is subject to income taxes in Australia and foreign jurisdictions and as a result the calculation of the Group's tax charge involves a degree of estimation and judgement in respect of certain items. There are transactions and calculations relating to the ordinary course of business for which the ultimate tax determination is uncertain. The Group recognises liabilities for potential tax audit issues based on management's estimate of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, these differences impact the current and deferred tax provisions in the period in which such determination is made. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The assumptions regarding future realisation, and therefore the recognition of deferred tax assets, may change due to future operating performance and other factors.

Current income tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years. To the extent permitted by the accounting standards, deferred tax is recognised for all taxable temporary differences between the amounts used for financial reporting and those used for taxation purposes. Both current and deferred tax assets and liabilities are offset only where the Group intends to settle on a net basis and has a legally enforceable right to do so.

Income tax expense for the year

USD million	2017	2016
Current tax (expense)/benefit		
Current period	(177.8)	(203.8)
Adjustments to current tax expense relating to prior periods	(3.6)	21.0
Tax losses, tax credits and temporary differences not recognised for book in prior years now recouped	3.4	6.8
Total current tax (expense)/benefit	(178.0)	(176.0)
Deferred tax (expense)/benefit		
Origination and reversal of temporary differences	35.7	57.0
Adjustments to deferred tax expense relating to prior period	6.7	(13.0)
Tax losses and credits derecognised	(15.4)	(5.1)
Change in applicable tax rates	(0.7)	1.8
Total deferred tax (expense)/benefit	26.3	40.7
Total income tax (expense)/benefit	(151.7)	(135.3)

Numerical reconciliation of income tax expense to prima facie tax payable

USD million	2017	2016
Profit before related income tax expense	765.7	408.9
Tax at the Australian tax rate of 30% (2016: 30%)	(229.7)	(122.7)
Tax effect of amounts which are not deductible/(taxable) in calculating taxable income:		
Net items non-deductible/non-assessable for tax	12.2	12.1
Significant items non-deductible/non-assessable for tax	-	(91.3)
Previously unrecognised tax losses, tax credits and temporary differences now used to reduce income tax expense	3.4	6.8
Tax losses and credits derecognised	(15.4)	(5.1)
Effect of local tax rate change	(0.7)	1.8
Underprovision in prior period	3.1	8.0
Foreign earnings taxed at rates other than 30%	75.4	55.1
Total income tax expense	(151.7)	(135.3)

Section 1: Key performance metrics

30 June 2017

1.5 Taxation (continued)

Tax on items recognised directly in equity

For the year ended 30 June 2017, USD 1.4 million tax expense (2016: USD 3.6 million) was charged directly to equity as a transaction with owners in their capacity as owners (refer to note 3.6).

Tax on significant items

The current year tax expense includes a tax benefit of USD 31.3 million relating to the Flexibles restructuring (2016: USD 16.8 million for Flexibles restructuring and USD 35.8 million for the elimination of the Venezuela exposure).

Deferred tax assets and liabilities reconciliation

USD million	Statement of financial position		Income statement	
	2017	2016	2017	2016
Property, plant and equipment	(239.3)	(241.6)	15.3	6.7
Impairment of trade receivables	6.4	1.6	2.8	2.7
Intangibles	(133.2)	(158.5)	24.6	(1.8)
Valuation of inventories	5.3	8.0	(3.7)	3.2
Employee benefits	93.0	96.5	(3.5)	2.7
Provisions	45.1	61.5	(16.3)	30.8
Financial instruments at fair value and net investment hedges	2.2	13.6	4.5	9.5
Tax losses carried forward	24.5	32.8	(9.4)	(29.5)
Accruals and other items	47.3	22.0	12.0	16.4
Deferred tax (expense)/benefit			26.3	40.7
Net deferred tax assets/(liabilities)	(148.7)	(164.1)		
Presented in the statement of financial position as follows:				
Deferred tax assets	66.7	47.5		
Deferred tax liabilities	(215.4)	(211.6)		
Net deferred tax assets/(liabilities)	(148.7)	(164.1)		

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

USD million	2017	2016
Unused tax losses for which no deferred tax asset has been recognised ⁽¹⁾	716.4	884.5
Potential tax benefits on unused tax losses at applicable rates of tax	207.9	260.5
Unrecognised tax credits	35.9	25.8
Deductible temporary differences not recognised	21.4	17.5
Total unrecognised deferred tax assets	265.2	303.8

⁽¹⁾ Unused tax losses have been incurred by entities in various jurisdictions. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available in those jurisdictions against which the Group can utilise the benefits.

Unrecognised deferred tax liabilities

A deferred tax liability on differences that result from translating financial statements of the Group's subsidiaries only arises in the event of a disposal. It is not expected in the foreseeable future to dispose of any subsidiary or associate and no such deferred tax liability is therefore recognised.

When retained earnings of subsidiaries are distributed upstream to Amcor Limited or other parent entities, withholding taxes may be payable to various foreign countries. These amounts are not expected to be significant and the Group controls when and if this deferred tax liability arises. No deferred tax liabilities are thus recognised on unremitted earnings.

Section 2: Operating assets and liabilities

In this section

This section highlights the primary operating assets used and liabilities incurred to support the Group's operating activities.

Liabilities relating to the Group's financing activities are covered in Section 3: Group's capital and risks. Deferred tax assets and liabilities are shown in note 1.5.

2.1 Trade and other receivables

Trade and other receivables are initially recognised at the value of the invoice issued to the customer and then adjusted to the amount considered recoverable from the customer, taking into account impairment, foreign exchange and interest effects where material.

Trade and other receivables as at 30 June comprise:

USD million	2017	2016
Not past due	996.8	1,083.1
Past due 0-30 days	78.9	66.0
Past due 31-120 days	38.5	24.9
More than 121 days	22.7	21.8
Trade receivables	1,136.9	1,195.8
Less provision for impairment losses	(20.9)	(15.5)
Total trade receivables	1,116.0	1,180.3
Prepayments	77.2	72.3
Other receivables	212.0	159.0
Total trade and other receivables	1,405.2	1,411.6

Credit risk management of customer contracts

Customer-related credit risk is the risk of a customer not paying in full the amounts owing to Amcor under its customer contract. This risk is managed in accordance with procedures and controls set out in the Group's credit risk management policy. These include:

- Credit limits are established for all customers based on external or internal rating criteria and letters of credit or other forms of credit insurance cover are obtained where appropriate.
- Credit quality of trade receivables is constantly monitored in order to identify any potential adverse changes.
- Collectability of trade and other receivables is reviewed on an ongoing basis.

While the Group holds no significant collateral as security, it also has no material exposure to any individual customer contract.

Financial difficulty of a customer, default in payments and the probability that a customer will enter bankruptcy are considered indicators that outstanding customer invoices on which Amcor is awaiting payment may be impaired. Where the Group will be unable to collect all or part of the amounts due, an impairment provision is recognised within general and administration expense. Individual customer debts which are known to be uncollectable are written off when identified.

Amcor Limited and its controlled entities

Financial Report

Notes to the financial statements

Section 2: Operating assets and liabilities

30 June 2017

2.2 Inventories

Inventories are valued at the lower of cost incurred in bringing each product to its present location and condition and net realisable value, which is the estimated selling price less estimated costs to sell.

USD million	2017	2016	Costs included to bring each product to its present location and condition ⁽¹⁾
Raw materials and stores	614.6	599.1	Purchase cost on a first-in first-out or weighted average basis
Work in progress	168.8	146.1	Direct materials and labour and a proportion of manufacturing
Finished goods	522.1	499.2	overheads incurred in the normal course of business
Total inventories	1,305.5	1,244.4	

⁽¹⁾ Cost also includes reclassification from equity of any gains or losses on qualifying cash flow hedges relating to the purchase of inventories in foreign currency.

Inventory pledged as security

No inventory in the current or prior year is pledged as security over any borrowings.

2.3 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost comprises expenditure that is directly attributable to the acquisition of the item and subsequent costs incurred to replace parts that are eligible for capitalisation. Depreciation is calculated on a straight-line basis over the estimated useful life of the asset or, in the case of leasehold improvements and leased assets, over the period of the lease or useful life of the asset, whichever is shorter.

Key judgements and estimates

Depreciation methods, residual values and useful lives are reassessed at each reporting date, and adjusted prospectively, if appropriate.

Leased assets

Leases under which the Group assumes substantially all the risks and benefits of ownership are classified as finance leases. Finance leases are recognised at the lower of the leased asset's fair value and the present value of the minimum lease payments. The asset is then depreciated over the shorter of its useful life and the lease term. Where it is reasonably certain that ownership will be obtained at the end of the lease term, the leased asset is depreciated over the expected useful life.

All other leases are operating leases and are expensed on a straight line basis over the lease term.

Derecognition of property, plant and equipment

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use. The difference between disposal proceeds and carrying value is either recognised in other income (gain on disposal) or general and administration expense (loss on disposal).

Section 2: Operating assets and liabilities

30 June 2017

2.3 Property, plant and equipment (continued)

Non-current assets pledged as security

At 30 June 2017, property, plant and equipment with a carrying value of USD 35.2 million (2016: USD 46.3 million) were provided as security for certain interest-bearing borrowings. Refer to note 3.2 for more information on non-current assets pledged as security by the Group.

In addition, property with a carrying value of USD 2.9 million has been pledged as security with regards to the Group's Brazil excise and income tax claims (2016: USD 3.0 million).

2.4 Intangible assets

The Group's intangible assets comprise goodwill and other intangible assets. Goodwill is considered to have an indefinite useful economic life. It is therefore not being amortised and is carried at cost less any accumulated impairment losses. All other intangibles are carried at cost less any accumulated amortisation and impairment losses.

A summary of the major classes of other intangible assets is as follows:

- customer relationships obtained through business acquisitions;
- computer software, developed internally or acquired externally; and
- product development to the extent that the capitalised costs relate to a specific asset that will generate a probable future economic benefit. Research activities undertaken with the prospect of gaining more general scientific or technical knowledge are expensed as incurred.

Key judgements and estimates

Intangible assets require the following management judgements:

- recoverable value and useful life of an intangible asset (reassessed at each reporting date); and
- determination that a project has progressed from general research to the development phase.

USD million	Other intangible assets					Total
	Goodwill	Customer relationships	Computer software	Product development	Other

2.5 Carrying value assessment of property, plant and equipment and intangible assets

The Group tests property, plant and equipment and intangible assets for impairment to ensure they are not carried above their recoverable amounts:

- at least annually for goodwill; and
- where there is an indication that the assets may be impaired (which is assessed at least each reporting date).

These tests are performed by assessing the recoverable amount of each individual asset or, if this is not possible, the recoverable amount of the cash generating unit (CGU) to which the asset belongs. CGUs are the lowest levels at which assets are grouped and generate separately identifiable cash flows. The recoverable amount is the higher of an asset's or a CGU's fair market value less costs of disposal or value in use. The value in use calculations are based on discounted cash flows expected to arise from the asset.

Key judgements and estimates

Management is required to make significant estimates and judgements in determining whether the carrying amount of the non-financial assets has any indication of impairment, in particular in relation to:

- the forecasting of future cash flows – these are based on the Group's latest approved internal five year forecasts and reflect expectations of sales growth, operating costs, margin, capital expenditure and cash flows, based on past experience and management's expectation of future market changes.
- discount rates applied to those cash flows.
- the expected long term growth rates – cash flows beyond the five year period are extrapolated using estimated growth rates. The growth rates are based on the long-term performance of each CGU in their respective market and are consistent with the long-term average industry growth rates in which the CGU operates.

Such estimates and judgements are subject to change as a result of changing economic and operational conditions. Actual cash flows may therefore differ from forecasts and could result in changes in the recognition of impairment charges in future periods. Any impairment change is recognised in the income statement if the carrying amount of an asset or a CGU exceeds its recoverable amount.

Amcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 2: Operating assets and liabilities

30 June 2017

2.5 Carrying value assessment of property, plant and equipment and intangible assets (continued)

The following table presents a summary of the goodwill allocation and the key assumptions used in determining the recoverable amount of each CGU:

CGU	Goodwill allocation		Pre-tax discount rate		Growth rate	
	2017 USD million	2016 USD million	2017 %	2016 %	2017 %	2016 %
Rigid Plastics						
Rigid Plastics	907.1	714.8	10.6	12.9	1.5	1.5
Flexibles						
Flexibles Europe, Middle East & Africa	289.0	280.1	8.3	7.7	0.0	0.0
Flexibles Americas	328.4	301.8	10.5	11.0	2.0	2.0
Tobacco Packaging	254.8	247.5	8.3	7.7	0.0	0.0
Flexibles Asia Pacific	254.0	246.0	9.0	9.7	3.0	3.0
Total goodwill	2,033.3	1,790.2				

Sensitivity analysis on reasonably possible changes to the discount rates or long term growth rates did not result in an outcome where impairment would be required.

Recognised impairment

Property, plant and equipment

During the year ended 30 June 2017, the Group recorded impairments totalling USD 20.9 million (2016: USD 25.5 million) within general and administration expense in the income statement. The impairments recognised during the period related to specific items of property, plant and equipment that were identified as surplus to current requirements.

Intangibles

During the year ended 30 June 2017, the Group recorded impairments totalling USD 1.6 million (2016: USD 2.5 million) within general and administration expense in the income statement.

Reversal of impairment

Impairment losses recognised for goodwill are not reversed. Impairment losses recognised in prior periods for assets other than goodwill are assessed at each reporting date for any indications that the impairment loss has decreased or may no longer exist. In such situations, the impairment loss is reversed and the depreciation charge is retrospectively revised to take into account the higher carrying value.

There were no material reversals of impairment in the current or prior year.

2.6 Provisions

Provisions are:

- recognised when the Group has a legal or constructive obligation as a result of a past event, it is probable that cash will be required to settle the obligation and the amount can be reliably estimated.
- measured at the present value of management's best estimate of the cash outflow required to settle the obligation. Any reasonable change in these assumptions is not expected to have a significant impact on the provisions.

Where a provision is non-current and the effect is material, the nominal amount is discounted and the unwind of the discount is recognised as financing cost in the income statement.

Provision	Description	Key judgements and estimates
Employee entitlements	<p>Liabilities for wages and salaries, including non-monetary benefits, and annual leave which are expected to be settled within 12 months of the reporting date. All other short-term employee benefit obligations are presented as payables.</p> <p>Liabilities for long service leave are measured as the present value of estimated future payments for the services provided by employees up to the reporting date.</p>	<p>Expected future wages and salary levels</p> <p>Experience of employee departures</p> <p>Periods of service (long service leave provisions only)</p>
Insurance and other claims	<p>The Group is self-insured for insurance and other claims. Provisions are recognised based on claims reported and claims expected to be reported in relation to incidents occurring prior to reporting date, based on historical claim rates.</p>	<p>Likelihood of settling customer and insurance claims</p>
Onerous contracts	<p>Onerous contract provisions relate to rental of land and buildings which are not able to be fully used or sublet by the Group, and certain customer and supply contracts procured through business acquisitions.</p> <p>A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the obligations under the contract. The provision is measured as the lower of the cost of fulfilling the contract and any compensation or penalties arising from the failure to fulfil it and is recognised only in respect of the onerous element of the contract.</p>	<p>Surplus lease space which the Group is not using and contracts the Group has entered into that are now unprofitable</p>
Asset restoration	<p>The asset restoration provision comprises mainly:</p> <ul style="list-style-type: none"> • make-good provisions included in lease agreements for which the Group has a legal or constructive obligation • decommissioning costs associated with environmental risks. At a number of sites, there are areas of contamination caused by past practice, many of which relate to operations prior to the Group's ownership. In addition, the Group recognises the environmental risks associated with underground storage tanks. The provision includes costs associated with the clean-up of sites it owns, or contamination that it caused, to enable on-going use of the land as an industrial property and costs associated with the decommissioning, removal or repair of any tanks which may fail integrity tests. <p>The present value of the estimated costs of dismantling and removing the asset and restoring the site is recognised as a provision with a corresponding increase to the related item of property, plant and equipment.</p> <p>At each reporting date, the liability is remeasured in line with changes in discount rates, estimated cash flows and the timing of those cash flows. Any changes in the liability are added to or deducted from the related asset, other than the unwinding of the discount, which is recognised as a financing cost in the income statement.</p>	<p>Future costs associated with dismantling and removing assets and restoring sites to their original condition</p>

2.6 Provisions (continued)

Provision	Description	 Key judgements and estimates
Restructuring	<p>Restructuring provisions are recognised when the Group has a detailed formal plan identifying the business or part of the business concerned, the location and approximate number of employees affected, a detailed estimate of the associated costs, and an appropriate timeline, and the restructuring has either commenced or been publicly announced.</p> <p>During the period Amcor continued to adapt the organisation within developed markets. This results in the restructuring or closure of several plants in developed markets and streamlining the organisation, particularly for the Flexibles segment in Europe, to enable greater customer focus and speed to market. The provisions made during the period mainly relate to these restructuring initiatives as announced in June 2016.</p>	<p>Future costs associated with the restructuring and timeline the restructure will take</p>

The Group's provisions are analysed as follows:

USD million	Employee entitlements	Insurance and other claims	Onerous contracts	Asset restoration	Restructuring	Other	Total
Balance at 1 July 2016	75.7	50.1	3.3	39.2	95.3	11.1	274.7

Non-current	42.8	17.2	0.5	40.5	-	10.4	111.4

Section 3: Group's capital and risks

In this section

The Group is exposed to a number of market and financial risks, and this section outlines these key risks and how they are managed.

Management uses a wide range of metrics to assist in maintaining an efficient capital structure, including but not limited to:

- Leverage ratio: net debt/profit before interest, tax, depreciation and amortisation (PBITDA) pre significant items
- PBITDA interest cover: PBITDA pre significant items/interest expense

3.1 Capital management

The Group's objective when managing capital (net debt and total equity) is to safeguard its ability to continue as a going concern and maintain optimal returns to shareholders and benefits for other stakeholders. Management aims to maintain an optimal capital and funding structure that ensures the lowest cost of capital available to the Group.

The key objectives include:

- maintaining an investment grade rating and maintaining appropriate financial metrics;
- securing access to diversified sources of debt and equity funding with sufficient undrawn committed facility capacity; and
- optimising the Weighted Average Cost of Capital (WACC) to the Group while providing financial flexibility.

In order to optimise the capital structure, the Company and its management may alter the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, draw down additional debt or sell assets to reduce debt in line with the strategic objectives and operating plans of the Group.

The capital management strategy aims to achieve an investment grade rating. The ratings at 30 June 2017 were investment grade BBB/Baa2 (2016: BBB/Baa2). The Group uses a range of financial metrics to monitor the efficiency of its capital structure, including leverage ratio (net debt/PBITDA) and PBITDA interest cover.

Metrics are maintained in excess of any debt covenant restrictions.

3.2 Net debt

The Group borrows money from financial institutions and debt investors in the form of bank overdrafts, bank loans, corporate bonds, unsecured notes and commercial paper. The Group has a mixture of fixed and floating interest rates and uses interest rate swaps to provide further flexibility in managing the interest cost of borrowings.

Interest-bearing liabilities are initially recognised at their fair value, net of transaction costs incurred. Similarly, the foreign currency liabilities are carried at amortised cost, translated at exchange rates as at reporting date. Subsequent to initial recognition, the interest-bearing and foreign currency liabilities are measured at amortised cost with any difference between the net proceeds received and the maturity amount to be paid recognised in the income statement over the period of the borrowings using the effective interest rate method.

Interest-bearing liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid is recognised in profit or loss as other income or finance costs.

Interest-bearing liabilities are classified as current liabilities, except for those liabilities where the Group has an unconditional right to defer settlement for at least 12 months after the year end which are classified as non-current liabilities.

Net debt		4,049.5		3,829.4					

(1) Unsecured bank loans are presented net of borrowing fees.

(2) Deposits for the Group bear floating interest rates based on prevailing market rates of the respective jurisdictions.

(3) Short-term deposits and short term money market investments.

(4) Commercial paper borrowings are classified as a current interest-bearing liability due to the short term rollover nature of the borrowings. Two syndicated global multicurrency tranches of USD 565.4 million due in July 2020 along with the USD 750 million Syndicated Facility due in April 2019 act as a liquidity back stop. Usage of these facilities reduces the available capacity to be drawn under the syndicated multi-currency facility.

Amcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 3: Group's capital and risks

30 June 2017

3.2 Net debt (continued)

Risks associated with net debt

(i) **Liquidity risk**

Nature of liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

Liquidity risk management

Liquidity risk is managed centrally by Amcor Group Treasury and involves maintaining available funding and ensuring the Group has access to an adequate amount of committed credit facilities. Due to the dynamic nature of the business, Amcor Group Treasury aims to maintain flexibility within the funding structure through the use of bank overdrafts, bank loans, corporate bonds, unsecured notes and commercial paper. The following is used to manage the risk:

- maintaining minimum undrawn committed liquidity of at least USD 300 million (in various currencies) that can be drawn upon at short notice;
- regularly performing a comprehensive analysis of all cash inflows and outflows in relation to operational, investing and financing activities;
- generally using tradeable instruments only in highly liquid markets;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- monitoring duration of long-term debt;
- only investing surplus cash with major financial institutions; and
- to the extent practicable, spreading the maturity dates of long-term debt facilities.

Financing arrangements

Actual and forecasted cash flows of each business segment are regularly monitored to assess the funding requirements of the Group to enable management to ensure that the Group has access to a range of diverse funding sources over various timeframes in order to meet cash flow requirements and to maintain adequate liquidity of the Group.

Committed facilities are those where an agreement is in place with the bank to provide funds on request up to a specified maximum at a specified interest rate and where agreement conditions must be adhered to by the borrower for the facility to remain in place. Uncommitted facilities are those where an agreement is in place with the bank where it agrees in principle to make funding available but is under no obligation to provide funding to the Group. The committed and uncommitted standby arrangements and unused credit facilities of the Group are analysed in the table below.

USD million	2017			2016		
	Committed	Uncom- mitted	Total	Committed	Uncom- mitted	Total
<i>Financing facilities available:</i>						
Bank overdrafts	-	118.9	118.9	-	128.8	128.8
Unsecured bill acceptance facility/standby facility	1,060.6	-	1,060.6	1,196.3	-	1,196.3
Loan facilities and term debt	4,501.9	103.5	4,605.4	3,762.6	153.8	3,916.4
	5,562.5	222.4	5,784.9	4,958.9	282.6	5,241.5
<i>Facilities utilised:</i>						
Bank overdrafts	-	3.8	3.8	-	2.3	2.3
Unsecured bill acceptance facility/standby facility	775.7	-	775.7	587.6	-	587.6
Loan facilities and term debt	3,790.3	41.2	3,831.5	3,657.3	97.9	3,755.2
	4,566.0	45.0	4,611.0	4,244.9	100.2	4,345.1
<i>Facilities not utilised:</i>						
Bank overdrafts	-	115.1	115.1	-	126.5	126.5
Unsecured bill acceptance facility/standby facility	284.9	-	284.9	608.7	-	608.7
Loan facilities and term debt	711.6	62.3	773.9	105.3	55.9	161.2
	996.5	177.4	1,173.9	714.0	182.4	896.4

For the purposes of reporting on management's internal liquidity targets to the Board, undrawn committed facility capacity excludes bank overdrafts and other short-term subsidiary loan borrowings.

30 June 2017

3.2 Net debt (continued)

Maturity of financial liabilities

The table below analyses the Group's financial liabilities excluding derivative financial instruments into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows, including principal and/or interest, calculated at 30 June. Non-derivative financial liabilities comprise interest-bearing liabilities and trade and other payables. Trade and other payables are recognised at the value of the invoice received from the supplier which is considered to approximate fair value. Trade payables are unsecured and non-interest bearing.

USD million	1 year or less	1-2 years	2-5 years	More than 5 years	Total
2017					
Non-interest-bearing	2,578.3	-	-	-	2,578.3
Variable rate	882.5	947.8	255.0	5.6	2,090.9

Total non-derivatives	3,822.8	1,962.6	768.2	1,079.1	7,632.7
2016					
Non-interest-bearing	2,418.4	-	-	-	2,418.4
Variable rate	903.0	91.0	568.4	10.1	1,572.5
Fixed rate	389.6	356.4	1,208.5	1,375.9	3,330.4
Total non-derivatives	3,711.0	447.4	1,776.9	1,386.0	7,321.3

(ii) Interest rate risk

Nature of interest rate risk

Interest rate risk is the risk that the Group is impacted by significant changes in interest rates. Borrowings issued at or swapped to floating rates expose the Group to interest rate risk.

Interest rate risk management

Arcor Group Treasury manages the Group's exposure to interest rate risk by maintaining an appropriate mix between fixed and floating rate borrowings, monitoring global interest rates and, where appropriate, hedging floating interest rate exposure or borrowings at fixed interest rates through the use of interest rate swaps and forward interest rate contracts. The Group's policy is to hold up to 75.0% fixed debt. At 30 June 2017 approximately 42.0% of the Group's debt is fixed rate (2016: 48.0%).

All of the Group's interest rate swaps are classified as fair value hedges so any movements in the fair value is recorded in the income statement.

Interest rate sensitivity

A sensitivity analysis has been performed to determine the impact on the income statement, based on the exposure to interest rates, for both derivative and non-derivative instruments at the end of the financial year utilising a 100 basis points movement in the floating rate on the relevant interest rate yield curve applicable to the underlying currency the borrowings are denominated in, with all other variables held constant. The currency with the largest sensitivity is the US dollar which has a movement of USD 10.7 million, no other single currency has a sensitivity greater than USD 10.0 million. The 100 basis points sensitivity analysis has been determined reasonable based on the Group's current credit rating and mix of debt in Australia and foreign countries, relationships with financial institutions, the level of debt that is expected to be renewed as well as a review of the last two year's historical movements and economic forecasters' expectations.

(iii) Credit risk

Nature of credit risk

Credit risk is the risk of loss if a counterparty fails to fulfil its obligation under a financial instrument contract. The Group is exposed to credit risk arising from financing activities including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

3.2 Net debt (continued)

Credit risk management

Credit risk from balances with financial institutions is managed by Amcor Group Treasury in accordance with Board approved policies. The investment of surplus funds is made only with approved counterparties and within credit limits assigned to each counterparty. Financial derivative instruments can only be entered into with high credit quality approved financial institutions with a minimum long-term credit rating of A- or better by Standard & Poor's. The Board has approved the use of these financial institutions, and specific internal guidelines have been established with regard to limits, dealing and settlement procedures. Limits are set to minimise the concentration of risks and therefore mitigate financial loss through potential counterparty failure. The Group has no significant concentration of credit risk in relation to derivatives undertaken in accordance with the Group's hedging and risk management activities.

3.3 Financial risk management

The Group's risk management program seeks to mitigate market risks including foreign exchange volatility, commodity price risk and employee share plan risk and reduce the volatility of the Group's financial performance. All financial risk management is carried out or monitored centrally by Amcor Group Treasury and is undertaken in accordance with treasury risk management policies approved by the Board.

Transactions in foreign currencies are translated into the functional currency of the entity using exchange rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at year end are translated to the functional currency at the year end spot rate. Foreign exchange gains and losses arising from settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges or net investment hedges.

Foreign exchange risk – transaction management

There is a risk that the value of a financial commitment, recognised monetary asset or liability or cash flow will fluctuate due to changes in foreign currency rates. Management's policy is to use forward exchange contracts to hedge forecast or actual foreign currency exposures, on transactions in currencies other than the entity's functional currency as follows:

	Transaction greater than USD 500,000 ⁽¹⁾	Capital expenditure greater than USD 100,000
Contractual certainty:	Must hedge 100%	Must hedge 100% or have a hedge strategy in place
Contractual uncertainty:		
timeframe < 6 months		Hedge 75%
timeframe 7-12 months		Hedge 50%
timeframe 1-2 years		Hedge 25%
timeframe > 2 years		Nil

⁽¹⁾The hedging of transactions smaller than USD 500,000 is at local management's discretion.

Forecast exposure greater than two years from the forecast date must not be hedged unless specifically approved by the Executive Vice President Finance and Chief Financial Officer. Businesses are not permitted to speculate on future currency movements.

Key judgement and estimates

Each individual entity within the Group records its transactions in its relevant functional currency, which is the currency of the economic environment in which the entity primarily generates and expends cash. For all entities within the Group with a functional currency that is not the United States dollar:

- assets and liabilities are translated at the closing exchange rate at the date of that balance sheet; and
- income and expenses are translated at year to date average exchange rates.

On consolidation, all exchange differences arising from translation are recognised in other comprehensive income and accumulated as a separate component of equity in the exchange fluctuation reserve (EFR). When a foreign operation is disposed of, the amount within EFR related to that entity is transferred to the income statement as an adjustment to the profit or loss on disposal.

Financial Report
Notes to the financial statements
Section 3: Group's capital and risks

30 June 2017

3.3 Financial risk management (continued)

Foreign exchange risk – translation management

The Group has investments in foreign operations whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant currency. The following table details how borrowings are used as designated hedges to eliminate the translation risk on net investments in foreign operations.

USD million	USD	EUR	GBP	CHF	NZD	HKD
2017						
Net assets, excluding net debt	1,738.4	1,015.5	41.9	165.8	88.8	411.9
Natural hedges	(1,458.9)	182.8	227.7	104.0	26.1	-
Net investment	279.5	1,198.3	269.6	269.8	114.9	411.9
Designated hedge	235.0	1,084.2	142.9	156.6	69.3	324.7
Unhedged net assets	44.5	114.1	126.7	113.2	45.6	87.2
2016						
Net assets, excluding net debt	1,604.6	988.9	24.0	87.1	95.6	427.7
Natural hedges	(1,517.0)	287.6	81.8	100.1	24.8	-
Net investment	87.6	1,276.5	105.8	187.2	120.4	427.7
Designated hedge	-	1,100.7	98.6	152.6	67.6	377.3
Unhedged net assets	87.6	175.8	7.2	34.6	52.8	50.4

On consolidation, foreign currency differences arising on external borrowings designated as net investment hedges of a foreign operation are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, to the extent that the hedge is effective. To the extent that the hedge is ineffective, the foreign currency differences are recognised in the income statement. When a hedged net investment is disposed of, a percentage (calculated as the percentage of funds employed disposed compared to the Group's total funds employed of that relevant currency) of the cumulative amount recognised in equity in relation to the hedged net investment is transferred to the income statement as an adjustment to the profit or loss on disposal.

Exchange rate sensitivity

The following table illustrates the sensitivity of the Group's net assets (after hedging) and financial derivatives movements against observed annual volatility in the relevant foreign currencies, with all other variables held constant, taking into account all underlying exposures and related hedges.

All forward contracts that do not have an underlying exposure already within the balance sheet are designated as cash flow hedges at inception. Subsequent testing of effectiveness ensures that all effective hedge movements flow through the cash flow hedge reserve within equity and have a minimal pre-tax impact on profit.

	Change in foreign exchange rate (annual volatility)		Impact on equity	
	2017	2016	2017	2016
	%	%	USD million	USD million
Australian dollar	9.4	12.0	(104.3)	(97.0)
Euro	7.5	9.8	1.5	12.0
British pound	8.8	12.8	11.5	22.9
Swiss franc	7.7	9.4	(1.7)	5.9
New Zealand dollar	10.0	13.3	3.9	5.4

Notes to the financial statements
Section 3: Group's capital and risks

30 June 2017

3.3 Financial risk management (continued)

(i) Commodity price risk

The Group is exposed to commodity price risk from a number of commodities, including aluminium, resin and certain other raw materials. In managing commodity price risk, the Group is ordinarily able to pass on the price risk contractually to customers through rise and fall adjustments. In the case of aluminium, some hedging is undertaken using fixed price swaps on behalf of certain customers. Hedging undertaken is based on customer instructions and all related benefits and costs are passed onto the customer on maturity of the transaction. Movements in commodity hedges are recognised within equity. The cumulative amount of the hedge is recognised in the income statement when the forecast transaction is realised. However, there is no impact on profit as a result of movements in commodity prices where hedges have been put in place as the Group entity passes the price risk contractually through to customers through rise and fall adjustments in customer contractual arrangements. As the Group ultimately passes on the risk associated with the movements in commodity prices, no sensitivity has been performed.

(ii) Employee share plan risk

The Group's employee share plans require the delivery of shares to employees in the future when rights vest or options are exercised. The Group currently acquires shares on market to deliver shares to employees to satisfy vesting or exercising commitments, this exposes the Group to cash flow risk, that is as the share price increases it costs more to acquire the shares on market.

Management of risk

The Amcor Employee Share Trust (the 'Trust') manages and administers the Group's responsibilities under the employee share plans through acquiring, holding and transferring shares or rights to shares, in the Company to participating employees. The Trust is consolidated as the substance of the relationship is that the Trust is controlled by the Group. All shares held by the Trust are disclosed as treasury shares and deducted from contributed equity. As at 30 June 2017, the Trust held 690,564 (2016: 2,390,937) of the Company's shares, refer to note 3.5.

To manage the cash flow risk, the Group has entered into forward contracts for the on-market purchase of ordinary shares of the Company. The details are:

	2017			2016		
	Expiry date	Contract volume	Average hedged price AUD	Expiry date	Contract volume	Average hedged price AUD
Less than one year	October 2018	3,000,000	16.54	May 2017	3,600,000	16.01

The financial liability of the forward contract is measured at the present value of the expenditure required to settle the contract with a corresponding reduction, net of any related income tax effects, recognised in equity.

(iii) Derivative financial instruments

The Group documents, at the inception of the transaction, the type of hedge, the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The documentation also demonstrates, both at hedge inception and on an ongoing basis that the hedge has been and is expected to continue to be highly effective.

Amcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 3: Group's capital and risks

30 June 2017

3.3 Financial risk management (continued)

The Group uses derivative financial instruments for two types of hedges:

	Fair value hedges	Cash flow hedges
What is it?	A derivative or financial instrument designated as hedging the change in fair value of a recognised asset or liability.	A derivative or financial instrument to hedge the exposure to variability in cash flows attributable to a particular risk associated with an asset, liability or forecast transaction.
Recognition date	At the date the instrument is entered into.	At the date the instrument is entered into.
Measurement	Measured at fair value.	Measured at fair value.
Changes in fair value	<p>The gain or loss relating to the effective portion of interest rate swaps hedging fixed rate borrowings is recognised in the income statement within finance costs, together with loss or gain in the fair value of the hedged fixed rate borrowings attributable to interest rate risk. The gain or loss relating to the ineffective portion is recognised in the income statement within finance income or expenses.</p> <p>If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to the income statement over the period to maturity using a recalculated effective interest rate.</p>	<p>Changes in the fair value of derivatives designated as cash flow hedges are recognised directly in other comprehensive income and accumulated in equity in the hedging reserve to the extent that the hedge is highly effective.</p> <p>To the extent that the hedge is ineffective, changes in fair value are recognised immediately in the income statement within other income or other expenses. Amounts accumulated in equity are transferred to the income statement or the balance sheet, for a non-financial asset, at the same time as the hedged item is recognised.</p> <p>The cumulative gain or loss existing in equity is reclassified into profit or loss at the time the forecast transaction impacts profit or loss or when the forecast transaction is no longer expected to occur.</p>

The tables below provide details of the derivative financial assets and liabilities included in the balance sheet:

USD million	2017		2016	
	Asset	Liability	Asset	Liability
Current				
Derivative financial instruments - fair value through profit and loss:				
Forward exchange contracts	5.6	6.0	10.7	8.6
Derivative financial instruments - cash flow hedges:				
Commodity contracts	2.5	0.2	0.8	-
Forward exchange contracts	0.6	-	0.9	2.1
Forward contracts to purchase own equity to meet share plan obligations	-	38.1	-	43.0
Total current other financial assets/liabilities	8.7	44.3	12.4	53.7

USD million	2017		2016	
	Asset	Liability	Asset	Liability
Non-current				
Derivative financial instruments - fair value hedges:				
Interest rate swaps	26.8	-	44.3	-
Total non-current other financial assets/liabilities	26.8	-	44.3	-

Notes to the financial statements

Section 3: Group's capital and risks

30 June 2017

3.3 Financial risk management (continued)

The table below analyses the Group's net and gross settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows calculated at 30 June.

USD million	1 year or less	1-2 years	Total
2017			
Derivatives - gross settled			
- Inflow	551.8	5.3	557.1
- Outflow	(599.6)	(5.6)	(605.2)
Net expected cash outflow	(47.8)	(0.3)	(48.1)
2016			
Derivatives - gross settled			
- Inflow	615.3	14.2	629.5
- Outflow	(669.3)	(14.8)	(684.1)
Net expected cash outflow	(54.0)	(0.6)	(54.6)

3.4 Fair value measurement

The fair value of financial assets and financial liabilities must be estimated for recognition, measurement and disclosure purposes.

Key judgements and estimates

Financial asset and liability	Fair value approach
Cash and cash equivalents Short term monetary financial assets and liabilities Trade and other receivables Trade payables	Carrying value approximates fair value due to short term nature of the assets and liabilities.
Other monetary financial assets and liabilities	Based on market prices (if they exist) or discounting the expected future cash flows by the current interest rate for financial assets and liabilities with similar risk profiles.
Unquoted equity investments	Based on underlying net assets, future maintainable earnings and any special circumstances pertaining to the particular investment.
Derivative financial instruments - reflects the estimated amounts which the Group would be required to pay or receive to terminate the contracts or replace them at their current market rates.	Based on internal valuations using standard valuation techniques with current market inputs including interest and forward exchange rates. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held.

The Group has a number of financial instruments which are not measured at fair value in the balance sheet. For the majority of these instruments, the fair values approximate their carrying amounts. Differences between the carrying amount and fair value were identified for the following instruments at 30 June:

USD million	Note	2017		2016	
		Carrying value	Fair value	Carrying value	Fair value
Financial liabilities					
US Dollar notes	3.2	675.9	735.8	957.3	1,058.5
144A	3.2	595.3	599.6	596.2	618.0
Euro notes	3.2	114.4	132.3	111.1	134.7
Eurobond	3.2	994.1	1,053.0	975.3	1,048.0
Swiss bond	3.2	156.6	159.8	152.6	157.6

The fair value of the US dollar notes, 144A Senior unsecured notes, Euro notes, the Eurobond, and the Swiss bond reflects the revaluation of these instruments, at prevailing market rates. The US dollar notes mature between December 2017 and December 2021, the 144A Senior unsecured notes mature in April 2026, the Euro notes mature in September 2020, while the Eurobonds mature between April 2019 and March 2023, and the Swiss bond in April 2018.

Amcor Limited and its controlled entities

Financial Report

Notes to the financial statements

Section 3: Group's capital and risks

30 June 2017

3.4 Fair value measurement (continued)

For financial assets and liabilities carried at fair value, the Group uses the following to categorise the method used:

- *level 1* – quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *level 2* – inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as over the counter prices) or indirectly (derived from over the counter prices).
- *level 3* – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of financial instruments traded in active markets (such as available-for-sale securities) is based on quoted market prices at the end of the reporting period. The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. Quoted market prices or dealer quotes for similar instruments are used to estimate fair value for long-term debt for disclosure purposes. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of forward exchange contracts is determined using forward exchange market rates at the end of the reporting period. These instruments are included in level 2 and comprise derivative financial instruments.

Where a valuation technique for these instruments is based on significant unobservable inputs, such instruments are included in level 3. The Group holds no level 1 or level 3 instruments at 30 June 2017 (2016: nil). The derivative financial instruments in note 3.3 were recognised at fair value using a level 2 valuation method.

3.5 Contributed equity

Ordinary shares

Ordinary shares issued are classified as equity and are fully paid, have no par value and carry one vote per share and the right to dividends. Incremental costs directly attributable to the issue of new shares or the exercise of options are recognised as a deduction from equity, net of any related income tax benefit.

Treasury shares

Treasury shares are shares in the Company that are held by the Amcor Employee Share Trust for the purpose of issuing shares to employees under the Group's employee share plans. Treasury shares are recognised at cost and deducted from equity, net of any income tax effects. When the treasury shares are subsequently sold or re-issued any consideration received, net of any directly attributable costs and income tax effects, is recognised as an increase in equity.

Repurchase of share capital

Where the Group purchases the Company's own equity instruments, as the result of a share buy-back, those instruments are deducted from equity and the associated shares are cancelled. The amount of the consideration paid, including directly attributable costs, is recognised as a deduction from contributed equity, net of any related income tax effects.

3.6 Reserves

Cash flow hedge reserve

The hedging reserve records the portion of the gain or loss on a hedging instrument in a cash flow hedge that is determined to be an effective hedge relationship.

Share based payments reserve

The share based payments reserve is used to recognise the fair value of options and rights recognised as an expense.

Demerger reserve

This reserve arose on the demerger of the AAPD group (now known as Orora). It represents the difference between the fair value of the AAPD shares (being the distribution liability arising on demerger), the amount allocated as a capital reduction and any transfers to other reserves.

Exchange fluctuation reserve (EFR)

Exchange differences arising on translation of foreign controlled operations are recognised in the EFR.

USD million	Cash flow hedge reserve	Share based payments reserve	Demerger reserve	Exchange fluctuation reserve	Total reserves

Section 4: Business portfolio

In this section

Building on 1.3, this section provides further insight into the business portfolio of the Group, including the value-creating acquisition opportunities which the Group has secured to improve industry structures and strengthen its leadership positions in chosen market segments. The acquisition of Sonoco's blow molding operations represents the next step change for Amcor in terms of scale and capabilities for specialty container manufacturing.

4.1 Businesses acquired

Business combinations are accounted for using the acquisition method. Identifiable assets, liabilities and contingent liabilities acquired are measured at fair value at the acquisition date.

The fair value of the consideration transferred comprises the initial cash paid to the sellers and an estimate for any future payments the Group may be liable to pay, based on future performance of the business. This latter amount is classified as contingent consideration and can be either classified as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in the income statement. Where settlement of any part of cash consideration is deferred, the amounts are discounted to their present value as at the date of exchange.

The excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the fair value of the net identifiable assets acquired is goodwill. When the excess is negative, the difference is recognised in the income statement as a bargain purchase. Acquisition related costs are expensed as incurred.

On the acquisition of a subsidiary, or of an interest in an associate or joint venture, fair values are attributed to the net assets including identifiable intangible assets and contingent liabilities acquired.

The non-controlling interests on the date of acquisition can be measured at either fair value or at the non-controlling shareholders' proportion of the net fair value of the identifiable assets assumed. This choice is made separately for each acquisition. Transactions with non-controlling interests are recorded directly in retained earnings.

The fair value of net assets acquired and cash consideration paid in respect of acquisitions during the year were as follows with the more substantial acquisitions discussed below:

USD million	Sonoco's blow molding operations 2017	Other 2017	Total 2017
Cash and cash equivalents	-	0.7	0.7
Trade and other receivables	36.0	4.6	40.6

Financial Report

Notes to the financial statements

Section 4: Business portfolio

30 June 2017

4.1 Businesses acquired (continued)

Significant acquisition during the period:

Blow molding operations of Sonoco Products Company

On 8 November 2016 the Group acquired the North American rigid plastics blow molding operations of Sonoco Products Company, a global packaging company based in the United States. The business has six production sites in the United States and one in Canada, and generates annual sales of approximately USD 210 million. These facilities service attractive sub-segments in the personal care and specialty food markets and the business brings strong, long standing relationships with leading multinational and large domestic customers.

The acquisition price of USD 271.8 million represents a multiple of 8.0 times EBITDA and was paid in cash. As a result of this transaction, the Group recognised USD 93.9 million of preliminary acquired net identifiable assets resulting in a preliminary goodwill of USD 177.9 million. The goodwill on acquisition is primarily attributable to expected synergies available to the consolidated entity upon the integration of the businesses into the Group, as well as benefits derived from the acquired workforce and other intangible assets that cannot be separately recognised. A detailed purchase price allocation will be performed over the twelve months following acquisition date.

The amounts listed under "other" include smaller acquisitions as well as adjustments made to previous acquisitions including Alusa where initial accounting was not yet completed as at 30 June 2016.

4.2 Equity accounted investments

Key judgements and estimates

Amcor has one significant associate, AMVIG Holdings Limited (AMVIG), over which it has significant influence, but not control or joint control, to govern the financial and operating policies of AMVIG.

The Group's investment in its associates and joint ventures (investees) is initially recorded at cost and subsequently accounted for using the equity method. The carrying amount of the investment is adjusted to recognise changes in the Group's interest in the net assets of the investees. Dividends received from the investees are recognised as a reduction in the carrying amount of the investment. Goodwill relating to the investees is included in the carrying amount of the investment and is not tested for impairment individually.

The Group's share of the results of the investees is reported in the income statement and its share of movements in other comprehensive income is recognised in other comprehensive income. Changes in the Group's share of the net assets of the investees, due to dilution caused by an issue of equity by the investees, are recognised in the income statement as a gain or loss.

Investments in investees are reviewed for impairment at least annually or whenever events or circumstances indicate that the carrying amount may not be recoverable. The impairment review compares the net carrying value with the recoverable amount, where the recoverable amount is the higher of the value in use calculated as the present value of the Group's share of the associate's future cash flows and its fair value less costs of disposal.

The associates and joint ventures of the Group are listed below:

Name of entity	Nature of relationship	Principal activity	Country of incorporation	Ordinary share ownership interest (%)		Carrying amount USD million	
				2017	2016	2017	2016
AMVIG Holdings Limited	Associate	Tobacco packaging	Cayman Islands	47.6	47.6	411.9	427.7
Aggregate carrying amount of individually immaterial equity accounted investments						-	18.8
Total equity accounted investments						411.9	446.5

Transactions with equity accounted investments

During the 12 months to 30 June 2017, the Group received dividends of USD 6.5 million from associates (2016: USD 13.2 million).

Acquisitions and disposals

In 2017, the Group acquired the remaining 50% in its former associate Discma AG. Since the acquisition, Discma AG is fully consolidated and no longer included as an equity accounted investment.

Amcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 4: Business portfolio

30 June 2017

4.2 Equity accounted investments (continued)

Reconciliation to carrying value of AMVIG

USD million	2017	2016
Group's share of net assets	213.6	229.9
Notional goodwill	199.6	204.4
Effects of movement in foreign exchange rates and other adjustments	(1.3)	(6.6)
Carrying amount at the end of the financial year	411.9	427.7

Key judgements and estimates

The Amcor carrying value of its equity investment in AMVIG when expressed in Hong Kong dollars per share is greater than the Hong Kong dollar per share quoted for AMVIG on the Hong Kong Stock Exchange at 30 June 2017. The Group's view is that AMVIG's quoted share price does not accurately reflect the fundamental value of the business.

Accordingly, in order to assess the carrying value of the investment in AMVIG the Group has assessed the recoverable amount with reference to the higher of fair value less costs of disposal and value in use. The value in use calculation requires the use of assumptions and includes cash flow projections for five years using management's best estimates based on historical publicly available information from AMVIG. The value in use calculation included a pre-tax discount rate of 9.1% (2016: 12.9%) and a perpetual growth rate of 4% (2016: 5%).

The Group also performed a sensitivity analysis on the impact of changes in the key assumptions underpinning the value in use model. Based on the value in use assessment, including the sensitivity analysis over key assumptions, the Group believes that the recoverable amount of the investment in AMVIG exceeds the Group's carrying value of the investment at 30 June 2017.

Summarised financial information for AMVIG Holdings Limited

The balance date for AMVIG is 31 December which is different to that of the Group due to the listing requirements of this entity on the Hong Kong Stock Exchange. In determining the Group's share of profits of AMVIG for the financial year ended 30 June 2017, the Group has used the latest publicly available financial information, being the audited results for the year ended 31 December 2016 plus management's best estimate for the six months ended 30 June 2017. The Group's share of net assets is based on the latest publicly available set of financial statements dated 31 December 2016 (2016: 31 December 2015).

The following tables provide summarised financial information for 100% of AMVIG from their latest available annual report.

USD million	2017	2016
Summarised statement of comprehensive income		
Revenues	328.6	420.7
Profit after tax	29.5	41.5
Other comprehensive income	(26.4)	(30.3)
Total comprehensive income	3.1	11.2
Summarised statement of financial position		
Current assets	362.4	392.3
Non-current assets	443.6	476.3
Total assets	806.0	868.6
Current liabilities	189.6	117.1
Non-current liabilities	167.7	268.6
Total liabilities	357.3	385.7
Net assets reported by AMVIG	448.7	482.9

4.3 Subsidiaries

The consolidated financial statements include Amcor Limited (parent entity) and the following significant wholly owned subsidiaries, unless stated otherwise, in the table below. Subsidiaries are fully consolidated from the date of acquisition, being the date on which Amcor obtains control, and continue to be consolidated until the date that such control ceases. Control exists where the Group has the power to govern the financial and operating policies of the entity in order to obtain benefits from its activities.

Section 5: Employee remuneration

In this section

This section provides financial insight into employee remuneration arrangements.

This section should be read in conjunction with the remuneration report as set out in the Directors' report, which contains detailed information regarding the setting of remuneration for Key Management Personnel. Employee expenses and employee provisions are shown in note 1.4 and note 2.6 respectively.

5.1 Share based payments

The Company provides benefits to employees (including the CEO and Senior Executives) of the Group in the form of share based payments, whereby employees render services in exchange for options or rights over shares. Share based payments can either be equity or cash settled. The expense arising from these transactions is shown in note 1.4.

The Group operates a number of share based payment plans. A description of each type of share based payment arrangement that existed at any time during the period is provided below. The fair value of options and rights granted under equity settled share based arrangements are measured at grant date and spread over the vesting period via a charge to employee benefit expense in the income statement and a corresponding increase in the share based payments reserve in equity. The fair value of options takes into account market performance conditions, but excludes the impact of any non-market vesting conditions (for example; internal financial targets). Non-market vesting conditions are included in the assumptions about the number of options that are expected to be vested.

Upon exercise of the options or rights, the relevant amount in the share based payments reserve is transferred to contributed equity.

Cash settled share based payments

The Board may nominate certain employees as eligible to participate in the Senior Executive Retention Plan (SERPP). These employees then receive entitlements that reflect the performance of Ancor Limited shares. These entitlements may be converted into a cash payment after the three year restriction period has expired. As at 30 June 2017, 50,000 SERPP entitlements are outstanding with a fair value of USD 12.44 each (30 June 2016: nil entitlements).

Also, cash settled share based payment plans are in place where the Group is unable to issue shares or options.

Liabilities for cash settled share based payment arrangements are as follows:

USD million	2017	2016
Total carrying amount of liabilities for cash settled arrangements	3.4	5.2

These liabilities also include former equity awards that were converted to cash settled arrangements.

Equity settled share based payments

A description of plans is contained in the table on the next page. The only additional equity plan not listed in the table is the Retention Share / Payment Plan. Under this plan, the Board nominates certain Senior Executives as eligible to receive fully-paid ordinary shares in part satisfaction of their remuneration for the relevant financial year. The number of shares issued is at the discretion of the Board. The restrictions on these shares do not allow the employee to dispose of the shares for a period of up to five years (or otherwise as determined by the Board), unless the employee ceases employment later than three years after the shares were issued. Any right or interest in the shares will be forfeited if the employee voluntarily ceases employment within three years from the date the shares were issued or if the employee is dismissed during the restriction period, for cause or poor performance. The shares subject to the Retention Share/Payment Plan carry full dividend entitlements and voting rights. The weighted average fair value is calculated using the market value at the date the shares were issued.

Details of the total movement in shares issued under the Retention Share/Payment Plan during the current and comparative period are as follows:

	2017		2016	
	No.	Fair value AUD	No.	Fair value AUD
Weighted average				
Restricted shares at beginning of financial period	585,281	13.49	15,000	7.11
Issued during the period	66,858	15.08	585,281	13.49
Restriction lifted	(355,598)	13.50	(15,000)	7.11
Cancelled	(25,000)	13.31	-	-
Restricted shares at end of financial period	271,541	13.89	585,281	13.49

Exercisable at 30 June	978,221	5.78	34,590	-	-

⁽¹⁾ Includes awards that were modified to SERPPs or cash payment upon employees' departure.

The weighted average share price as at the date of exercise for Options was AUD 15.59 (2016: AUD 13.61) and AUD 16.00 (2016: AUD 13.27) as at the date of exercise for Share Rights. The exercise price of the Share Rights and Performance Rights are nil. Options outstanding at the end of the year have the following exercise prices:

Grant date	Exercise price AUD	2017 No.	2016 No.
5 August to 22 September 2010	5.17	6,100	55,000
9 December 2011 to 12 June 2012	5.81	246,100	923,221
30 November 2012	6.09	320,200	4,747,300
20 November 2013	9.31	3,924,288	4,109,527
24 November 2014	10.28	3,891,848	4,157,700
4 October 2016	15.09	6,127,300	-
Outstanding at 30 June		14,515,836	13,992,748
Weighted average remaining contractual life of options outstanding at 30 June		4.4 years	4.1 years

Fair value of options and rights granted

The average fair value of the options granted on 4 October 2016 was AUD 1.59. Performance rights and shares granted on the same day had an average fair value of AUD 9.32.

Key judgements and estimates

The fair value of options and performance rights is measured using the Black-Scholes methodology to produce a Monte Carlo simulation which allows incorporation of performance hurdles. The following assumptions are used in the calculation:

	2017
Expected dividend yield assuming no change in dividend payout (%)	4.00
Expected price volatility of the Company's shares based on historical data (%)	21.00
Share price at grant date (AUD)	15.30
Weighted average exercise price (AUD)	15.09
Risk-free interest rate (%)	1.47
Expected life of option based on historical data (years)	4.00

The number of options that are expected to vest based on the non-market conditions is revised at each reporting date and the impact, if any, is recognised in the income statement.

Arcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 5: Employee remuneration

30 June 2017

5.2 Retirement benefit obligations

The Group contributes to a number of defined contribution funds on behalf of employees and the Group's legal or constructive obligation is limited to these contributions. Contributions payable by the Group are recognised as an expense in the income statement as incurred. The expense is not material for further disclosures.

The Group also maintains a number of defined benefit schemes. These include statutory and mandated benefit provision in some countries as well as voluntary plans (generally closed to new joiners). The plans can either be funded or unfunded. Where funded, the Group and, in some countries, the employees make cash contributions into the pension fund. In the case of unfunded plans, the Group is responsible for benefit payments as they fall due. Plan funding requirements are generally determined by local regulation and/or best practice and differ between countries – the local statutory funding positions are not necessarily consistent with the funded status disclosed in the statement of financial position. For any funded plans in deficit (as measured under local country guidelines), the Group agrees with the trustees and plan fiduciaries to undertake suitable funding programmes to provide additional contributions over time in accordance with local country requirements.

During the year, the Group maintained 15 statutory and mandated defined benefit arrangements and 50 voluntary defined benefit plans. The principal defined benefit plans are structured as follows:

Country	Number of funded plans	Number of unfunded plans	Comment
United Kingdom	1	-	Closed to new entrants and future accruals.
Switzerland	1	-	Open to new entrants.
France (other Europe) ⁽¹⁾	3	2	One plan is closed to new entrants, two plans are partially indemnified by Rio Tinto Ltd. ⁽¹⁾
Germany (other Europe) ⁽¹⁾	4	12	10 plans are closed to new entrants, six are partially indemnified by Rio Tinto Ltd. ⁽¹⁾
Canada (North America)	4	1	Closed to new entrants and future accruals.
United States of America (North America)	1	2	Unfunded retirement plan is closed to new entrants and is not accruing future benefits.

⁽¹⁾ Rio Tinto Limited assumes responsibility for its former employees' retirement entitlements as at 1 February 2010 when the Group acquired Alcan Packaging from Rio Tinto Limited.

Movements in defined benefit obligation and fair value of plan assets

The movement in defined benefit obligation and fair value of plan assets is due to the following:

Items	Description	Recognised in
Current service cost	The cost to the Group of future benefits resulting from employee service in the current period.	Operating costs in the income statement.
Past service cost	Refers to the cost or credit as a result of changes in the benefits offered to members (plan amendments), a reduction in the number of employees (curtailments) covered by the plan or transactions entered into by the Group to eliminate all further legal or constructive obligations for some or all of the benefits provided by the schemes (settlements). Settlement gains or losses can arise from the transfer of member benefits into alternative pension arrangements, fully insuring benefits or on business disposals.	Operating costs in the income statement.
Interest (expense)/income	Interest expense is the unwinding of the discount on the present value of the obligation. Interest income on plan assets is based on the value of the scheme assets at the beginning of the year multiplied by the same rate as the discount rate applied to the obligation.	Net finance costs in the income statement.
Experience (gains)/losses	In order to value the Group's defined benefit obligation at the end of the period, it is necessary to apply certain assumptions in relation to demographic and financial trends. Actuarial gains or losses arise when there is a difference between previous estimates and actual experience, or a change in assumptions.	Other comprehensive income.
Re-measurement return on plan assets	Arise from differences between actual and the expected final asset values.	Other comprehensive income.
Contributions	The Group's contributions and cash contributions by the scheme participants are paid into the schemes to be managed and invested.	Statement of financial position.
Benefits paid	Any benefits paid out by the scheme will lower the obligations of those plans.	Statement of financial position.

Balance as at 30 June	1,319.3	(988.1)	331.2	1,551.7	(1,120.1)	431.6

⁽¹⁾ Negative past service costs predominantly relate to restructuring and the buy-out of pension liabilities across different plans.

Amcor Limited and its controlled entities
 Financial Report
 Notes to the financial statements
 Section 5: Employee remuneration

30 June 2017

5.2 Retirement benefit obligations (continued)

The plan assets and liabilities by country are as follows:

USD million	2017			2016		
	Defined benefit obligation	Fair value of plan assets	Net defined benefit liability/(asset)	Defined benefit obligation	Fair value of plan assets	Net defined benefit liability/(asset)
UK	552.6	(520.4)	32.2	586.7	(545.2)	41.5
Switzerland	303.8	(241.8)	62.0	499.1	(351.6)	147.5
Other Europe	304.5	(137.0)	167.5	311.6	(140.0)	171.6
North America	147.0	(87.3)	59.7	146.3	(81.4)	64.9
Latin America	3.0	-	3.0	-	-	-
Asia	8.4	(1.6)	6.8	8.0	(1.9)	6.1
Balance as at 30 June	1,319.3	(988.1)	331.2	1,551.7	(1,120.1)	431.6

Categories of plan assets

The funded pension plans hold assets across a number of different classes, these being equities, bonds, real estate, cash and other investments. These assets are managed by each Plan's Trustees, although the Trustees are required to consult with the Group on changes to their investment policy.

The fair value of the major categories of plan assets is as follows:

USD million	2017			2016		
	Quoted	Unquoted	Total	Quoted	Unquoted	Total
Equity instruments	261.2	-	261.2	302.5	-	302.5
Government bonds	284.0	-	284.0	284.2	-	284.2
Corporate bonds	152.4	-	152.4	227.7	-	227.7
Real estate	52.7	-	52.7	63.3	-	63.3
Cash and cash-equivalents	6.7	-	6.7	8.5	-	8.5
Indemnified assets	-	0.6	0.6	-	0.7	0.7
Other	126.0	104.5	230.5	129.7	103.9	233.6
Total plan assets as at 30 June	883.0	105.1	988.1	1,015.9	104.6	1,120.5

 Key judgements and estimates

The main assumptions used in the valuation of retirement benefit assets and obligations include discount rate, rate of inflation, expected return on plan assets, future salary increases and medical cost trend rates (in the case of the post-retirement health plans). The Group takes independent actuarial advice in determining these assumptions. A change in assumptions or the application of different assumptions could have a significant effect on the income statement, other comprehensive income and statement of financial position.

The table below shows the significant actuarial assumptions (expressed as weighted averages) used for the purposes of reporting under AASB 119 *Employee Benefits* for the Group's defined benefit plans are as follows:

	2017	2016
Discount rate	2.04%	1.88%
Rate of inflation	2.35%	2.07%
Longevity at age 65 for current pensioners		
	<u>Years</u>	<u>Years</u>
Males	19.3 - 24.6	19.0 - 24.5
Females	22.0 - 28.0	22.6 - 27.7

Amcor Limited and its controlled entities
Financial Report
Notes to the financial statements
Section 5: Employee remuneration

30 June 2017

5.2 Retirement benefit obligations (continued)

The following sensitivity analysis gives an estimate of the potential impacts of changes in the significant actuarial assumptions on the defined benefit obligation (DBO) as at year end:

USD million		Impact on DBO	
		2017	2016
Discount rate	+ 0.25%	(55.8)	(65.2)
	- 0.25%	59.1	67.8
Inflation rate	+ 0.25%	35.0	31.9
	- 0.25%	(34.1)	(30.9)
Future mortality	+ 1 year	43.3	54.6
	- 1 year	(43.1)	(54.3)

The sensitivity to inflation rate includes the impact from movements in all inflation linked assumptions such as salary and pension increases.

Duration and amount of future cash flows

The table below gives an indication of the average duration of the defined benefit obligations as well as the expected Group's contributions to the plan for the next year:

	2017	2016
Weighted average duration of defined benefit obligation, years	17.9	17.9
Contributions next period, USD million	37.3	43.5

5.3 Key Management Personnel

Key Management Personnel compensation

Key Management Personnel (KMP) compensation is set out below. Detailed remuneration disclosures are provided in the audited Remuneration report section in the Directors' report.

USD thousand	2017	2016
Short term employee benefits	13,190	13,737
Post employment benefits	757	787
Share based payments expense	4,480	3,910
Total compensation to KMPs	18,428	18,434

Individual Directors' and Executives' compensation disclosures

Apart from the information disclosed in this note, no Director has entered into a material contract with the consolidated entity since the end of the previous financial year and there were no material contracts involving Directors' interests existing at year end.

No individual KMP or related party holds a loan greater than USD 100,000 with the consolidated entity (2016: nil). No impairment losses have been recognised in relation to any loans made to KMP (2016: nil) and no loans were advanced during the current year (2016: nil). Other than those items discussed above, together with the detailed disclosures in the audited Remuneration report section in the Directors' report, there have been no other transactions between KMP and the Company.

Section 6: Other disclosures

In this section

This section includes additional financial information that is required by the accounting standards and the *Corporations Act 2001*.

6.1 Auditors' remuneration

Key judgements and estimates

The Group operates in many territories around the globe under different direct and indirect tax regimes. From time to time the Group receives assessments for additional tax from revenue authorities which, having consulted with experts including external counsel, it believes are unfounded. Nonetheless, at any point in time matters will be under discussion and review with revenue authorities for which a theoretical exposure may exist.

Specifically, the Brazil operations have received a series of excise and income tax claims from the local tax authorities which are being challenged via a court process. In the opinion of outside counsel these claims have a remote likelihood of being upheld, however as these cases progress through the court system in Brazil, Amcor is required to pledge assets, provide letters of credit and/or deposit cash with the courts to continue to defend the cases. The company will continue to provide such pledges in the future as the matters are being vigorously defended by Amcor. At this stage, it is not possible to accurately determine the exact exposure. The disclosed contingent liabilities reflect an estimate of the amount or range of expense that could result from an unfavourable outcome in respect of these or any additional assessments that may be issued in the future as penalties and interest may be applied should the entity be unsuccessful in defending the cases. Management continues to monitor with the support of external counsel and all means are being examined in order to minimise any exposure.

The Directors are of the opinion that provisions are not required in respect of these matters, as it is either not probable that a future sacrifice of economic benefits will be required or the amount is not capable of reliable measurement.

6.3 Amcor Limited – parent entity

The financial information for the Company has been prepared on the same basis as the consolidated financial statements, except as set out below:

Investments in subsidiaries - carried at cost less, where applicable, accumulated impairment losses.

Financial guarantee contracts - Where guarantees in relation to loans or other payables of subsidiaries or associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment in the financial statements of the Company.

Summary financial information

USD million ⁽¹⁾	2017	2016
Total current assets	4,638.2	5,566.7
Total assets	11,149.9	9,568.6

⁽²⁾ Year-on-year increase is driven by dividends received from other Amcor entities.

Amcor Limited and its controlled entities

Financial Report

Notes to the financial statements

Section 6: Other disclosures

30 June 2017

6.3 Amcor Limited – parent entity (continued)

(a) Financial guarantees

In the prior year, the Company guaranteed the bank overdrafts, finance leases and drawn components of bank loans of a number of subsidiaries. These guaranteed overdrafts have been paid down and any remaining debt is without a guarantee from Amcor Limited.

The Company has also entered into a Deed of Cross Guarantee with certain subsidiaries. Refer to note 6.4 for more details.

(b) Contingent liabilities of Amcor Limited

The contingent liabilities comprise guarantees given by Amcor Limited in respect of property leases and other financial obligations in wholly-owned subsidiaries including letters of credit to support the ongoing defence of tax cases in Brazil.

Tax consolidation

Amcor Limited and its wholly-owned Australian resident entities have formed a tax-consolidated group and are therefore taxed as a single entity. The head entity within the tax-consolidated group is Amcor Limited.

Members of the tax-consolidated group recognise their own current tax expense/income and deferred tax assets and liabilities as if each entity in the tax consolidated group continues to be a 'stand-alone taxpayer' in its own right.

In addition to its current and deferred tax balances, Amcor Limited also recognises the current tax liabilities (or assets), and the deferred tax assets arising from unused tax losses and unused tax credits assumed from members of the tax-consolidated group.

Members of the tax-consolidated group have entered into a tax funding agreement which requires each member of the tax-consolidated group to pay a tax equivalent amount to or from the parent in accordance with their notional current tax liability or current tax asset. The funding amounts are recognised as intercompany receivables or payables.

Assets or liabilities arising under tax funding agreements with members of the tax-consolidated group are recognised as current amounts receivable or payable from the other members of the tax-consolidated group.

Any difference between the amounts assumed by Amcor Limited and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

6.4 Deed of Cross Guarantee

The parent entity, Amcor Limited, and subsidiaries listed below are subject to a Deed of Cross Guarantee (Deed) under which each company guarantees the debts of the others:

Amcor Packaging (Asia) Pty Ltd	Amcor European Holdings Pty Ltd
Amcor Services Pty Ltd	Amcor Holdings (Australia) Pty Ltd
Amcor Investments Pty Ltd	Techni-Chem Australia Pty Ltd
Amcor Finance (NZ) Ltd	Amcor Flexibles Group Pty Limited
Amcor Finance Australia Pty Ltd	Amcor Flexibles (Australia) Pty Limited
Packsys Pty Ltd	Packsys Holdings (Aus) Pty Ltd
Amcor Flexibles (Dandenong) Pty Ltd	Amcor Flexibles (Port Melbourne) Pty Ltd

By entering into the Deed, the wholly owned subsidiaries have been relieved from the requirement to prepare a financial report and directors' report under ASIC Corporations (Wholly-owned Companies) Instrument 2016/785.

Financial Report

Notes to the financial statements

Section 6: Other disclosures

30 June 2017

6.5 Basis of preparation and compliance

Basis of preparation

Throughout the financial report, *the Company* refers to Amcor Limited and *the Group* includes its subsidiaries. The Company is domiciled and incorporated in Australia and the Group is a for-profit entity for the purpose of preparing the financial statements. The consolidated financial statements were approved by the Board of Directors on 22 August 2017.

The financial report:

- is a general purpose financial report;
- has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards (AASBs) including Australian Accounting Interpretations, adopted by the Australian Accounting Standards Board (AASB) and International Financial Reporting Standards (IFRS) and Interpretations as issued by the International Accounting Standards Board;
- has been prepared on a going concern basis using historical cost conventions except for the following items in the statement of financial position measured at fair value:
 - available-for-sale financial assets;
 - derivative financial instruments;
 - non-derivative financial instruments at fair value through profit or loss;
 - liabilities for cash settled share based payment arrangements; and
 - defined contribution plan assets, refer note 5.2 for more details;
- is presented in United States Dollars with all values rounded to the nearest 100,000 or, where the amount is USD 50,000 or less, zero, unless otherwise stated, in accordance with the ASIC Corporations (Rounding in Financial/Directors' reports) Instrument 2016/191 dated 24 March 2016;
- presents reclassified comparative information where required for consistency with the current year's presentation;
- adopts all new and amended AASBs and Interpretations issued by the AASB that are relevant to the operations of the Group and effective for reporting periods beginning on or after 1 July 2016;
- does not early adopt any AASBs and Interpretations that have been issued or amended but are not yet effective with the exception of those mentioned below; and
- has all intercompany balances, income and expenses, unrealised gains and losses and dividends resulting from intercompany transactions eliminated in full.

Financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

New and amended accounting standards and interpretations adopted from 1 July 2016

The Group has applied AASB 2014-10 *Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* for the first time in the annual reporting period commencing 1 July 2016. As no assets were sold or contributed between the Company and its associates and joint ventures, the application did not have an impact on the Group's accounts.

Amcor Limited and its controlled entities

Financial Report

Notes to the financial statements

Section 6: Other disclosures

30 June 2017

6.5 Basis of preparation and compliance (continued)

New and amended standards and interpretations issued but not yet effective

Certain new accounting standards and interpretations have been published that are non-mandatory for the year ended 30 June 2017.

AASB 2016-2 Disclosure Initiative: Amendments to AASB 107

Application date by Amcor: Financial year starting on 1 July 2017

The amendment to AASB 107 introduces additional disclosures that will enable users of financial statements to evaluate changes in liabilities arising from financing activities. The amendment requires disclosure of changes arising from:

- cash flows, such as drawdowns and repayments of borrowings, and
- non-cash changes, such as acquisitions, disposals and unrealised exchange differences.

This amendment requires the disclosure of an additional reconciliation in the notes to the financial statements without impacting any other parts of neither the financial statements nor the Group's results.

AASB 9: Financial Instruments

Application date by Amcor: Financial year starting on 1 July 2018

AASB 9 is introducing a new approach for the classification and measurement of financial assets based on cash flow characteristics and the business model used for the management of the financial instruments. Further, an expected credit loss model is introduced whereby losses have to be recognised as they are expected and not only when they are incurred. The third component is hedge accounting where more flexibility and better alignment with companies' risk management practices is provided.

The Group has reviewed the different sections of AASB 9 to determine the impact of the new Standard and to develop accounting policies that will be rolled-out in financial year 2018.

The new classification and measurement approach as well as the expected loss model are not expected to have a significant impact on Amcor's results. Also, all hedging strategies currently applied by Amcor can continue to be applied. The Group does not expect the impact of these changes to be material.

AASB 15: Revenue from Contracts with Customers

Application date by Amcor: Financial year starting on 1 July 2018

The core of AASB 15 is that revenue is recognised when control of the goods or services passes to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services.

Work to date has focused on the Group's main revenue streams in both Rigid Plastics and Flexibles by reviewing arrangements with customers to identify impacts of the new Standard and to develop an accounting policy to be rolled out to the Group. This roll-out will take place in financial year 2018.

Amcor is providing packaging materials to its customers based on contracts that may contain several elements but for the vast majority of contracts, these reflect only one performance obligation. Revenue will be recognised at a point in time when the customer obtains control over the packaging goods which is not materially different from revenue recognition under current Standards. It is expected that the adoption of AASB 15 will not result in a significant change to the Group's recognition or presentation of revenues.

AASB 16: Leases

Application date by Amcor: Financial year starting on 1 July 2019

Essentially, the new Standard requires all lease arrangements ("right of use assets") to be recognised on the balance sheet. The structure of the income statement will change as the right of use assets are depreciated and the corresponding lease liability leads to interest expense. The cash flows are divided into a repayment and interest portion, thus improving operating cash flows.

The Group has modelled the impacts of the new Standard and accounting policies have been developed to be rolled out to the Group in 2018.

Under AASB 16 the present value of the Group's operating lease commitments as defined under the new Standard, excluding low value leases and short term leases, will be shown as right of use assets and as lease liabilities on the balance sheet. Information on the undiscounted amount of the Group's operating lease commitments under AASB 117, the current leasing Standard, is disclosed in note 6.2.

The structure of balance sheet, income statement and cash flow of the Group will change as a result of the adoption of this new Standard. Management continues to monitor developments around the Group's lease arrangements under both current and future lease accounting standards.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

Amcor Limited and its controlled entities

Director's Declaration

30 June 2017

1. In the opinion of the Directors of Amcor Limited ('the Company'):
 - (a) the financial statements and notes, and remuneration disclosures that are detailed within the Remuneration report in the Directors' report, are in accordance with the *Corporations Act 2001*, including:
 - i. complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - ii. giving a true and fair view of the consolidated entity's financial position as at 30 June 2017 and of its performance for the financial year ended on that date; and
 - (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Note 6.5 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

2. At the date of this declaration, there are reasonable grounds to believe that, for the purposes of ASIC Corporations (Wholly-owned Companies) Instrument 2016/785, the Company and the consolidated entities identified in note 6.4 will be able to meet any liabilities to which they are or may become subject by virtue of the Deed of Cross Guarantee between the Company and those consolidated entities.
3. The Directors have been given the declarations required by Section 295A of the *Corporations Act 2001* from the Chief Executive Officer and the Chief Financial Officer for the financial year ended 30 June 2017.

Signed in accordance with a resolution of the Directors, dated at Melbourne Victoria, this 22nd day of August 2017.

Graeme Liebelt
Chairman
