

Title: Hentaigana Unification Candidates

Source: Dr. Ken Lunde (Adobe)

Status: Individual contribution

Reference: L2/15-343 & Action Item 145-A83

Action: For consideration by the UTC

In an effort to make progress on [Action Item 145-A83](#), the following two pages list 23 pairs of hentaigana characters from [L2/15-343](#) that share the same parent ideograph and may be considered as candidates for unification, based on my understanding of calligraphic practices and principles, and on the grounds that the “Academic Use” character lacks a corresponding “Family Registration” source reference.

That is all.
