¹ Annual averages for students represent Fall-Winter-Spring quarter averages (or in the case of Law, Fall-Spring semester averages). Annual averages for faculty and staff represent averages of October and April snapshot figures for each year.

² Includes students, faculty and staff at UCDMC, Bodega Bay, Lawrence Livermore Laboratory, and other locations outside the City of Davis

³ The Working Professional MBA, Forensic Science, and Master of Advanced Study programs are self-supporting. All other programs are state supported, although several professional programs charge special fees.

⁴ As of 2011-12, the data source for Faculty and Staff population data changed from the Campus Payroll Personnel Data Warehouse (PPS) to the Corporate Personnel System (CPS). Along with this data source change, slight modifications to the methodology were made; most notably, employee location is now determined by Home Department except in the case of some WOS employees who have health science related job titles. Also, only 10% of the emeriti faculty included in the WOS headcount for the campus.
