

NP200

EARLY DAYS

Globally Nissan has a longstanding heritage in the commercial vehicle market that dates back to 1932. The Nissan brand presence in the LCV market has been built over the last seven decades and today Nissan boasts the most comprehensive commercial vehicle line-up in South Africa.

The previous Nissan half-ton Bakkie is a living legend. Highly versatile and functional, it proved to be the most hardworking and affordable half-tonner on the market. The Nissan NP200 range picks up where its predecessor left off, and brings a youthful energy to the line-up.

EYE CANDY

The Nissan NP200 range gives more than only practicality and under-the-skin durability. The sleek exterior styling projects a no nonsense attitude. The extremely spacious interior cabin provides passenger car-like comfort and lots of space for your belongings. The ergonomically designed driving position keeps you in control, while power steering and a coil spring suspension ensures an unbelievably smooth driving experience.

SAFELY GROUNDED

Crumple zones are engineered around impact resistance while the engine compartment is designed to stack up in frontal impact collisions. The restraint system includes 3-point seat belts; impact absorbent material underfoot in the dashboard and the doors provide hip and limb protection. The Anti-lock Braking System (ABS) and Electronic Brake force Distribution (EBD) prevents the wheels from locking. The Nissan NP200 comes standard with both a 6 year/150 000km warranty plan and Nissan's DataDoT Anti-theft technology.

The NP200 boasts the biggest interior cabin space in its class with an additional storage area (300l) behind the seats. Extensive storage capacity includes glove box, door bins and drink holders under the central console.

High quality aesthetics offer you the luxury and styling of passenger vehicles without compromising on the practicality and versatility that is consistent with a bakkie.

High quality trim, impressive levels of equipment and instrumentation combine comfort with safety and performance.

* Driver-friendly technology includes an air conditioner, power steering, audio system and central locking.

* Not standard across all models.
