The first of Stuttgart's finds, and the first of the Mercedes car prizes, went to a 26 year-old Finn who was walking in her third world championship. Nineteenth in 1987, third in 1991, Sari Essayah took the lead at around 7Km following the disqualification of Svensson, the 1991 silver medallist. The Finn speeded up thereafter, and started lapping the field. The second half of the race took her just 21:05. It was no surprise to see the experienced Salvador take a silver, but Granados was an unexpected bronze medallist in a new Spanish record.

At 18 years 135 days, Stankina replaced Ismael Kirui as the youngest ever world champion of the time. She beat a strong field which produced the quickest times ever for places between third and fifteenth. Twelve walkers were in contention at halfway with Perrone forcing the pace (21:21 at 5Km).

The drama started in the final 2Km when Perrone, Stankina and World Cup winner Gao moved clear. Gao was abruptly disqualified outside the stadium, leaving Stankina to win from Perrone and Nikolayeva, who suddenly and controversially caught the defending champion Essayah in the final two strides of the race.

For the first and last time the women's walk was contested in these championships as a 10,000m track event; from 1999 it would be 20Km

on the road. Sidoti, the 1990 European champion who only came into the Italian team as a reserve, became the smallest of all world champions (she is just 1.50m or 4ft 11in tall) as she led from the second kilometre onwards for victory in 42:55.49 ... somewhat quicker than the 45:02.8 which won the last men's Olympic race at this distance on the track in 1952! Sidoti covered the first half in 21:23.72, the second in 21:31.77. Defending champion Stankina, the only opponent to stay close to Sidoti after halfway, was disqualified at 8Km. Her Russian colleagues had a disastrous time also: Ivanova, who crossed the line in second place, was later stripped of her medal and banned for two years after testing positive for Stanazolol, and Olympic Champion Nikolayeva placed no higher than ninth.

China's only medals of the championships came here as Liu Hongyu and Wang Yan entered the stadium well clear of the rest and just two strides apart. Covering the final 5 kilometres in a vicious 22:11, Liu (24) won the inaugural world title at this distance. She had already won the World Cup race earlier in the year in 1:27:32, just 2 sec outside the world record she shared. Wang, who became the youngest ever world record breaker when setting 5000m figures in 1986, aged 14, added a silver to her Olympic bronze of 1996.

The bronze went to a real veteran in 38 year-old Junna-Saxby, 12 years after taking silver; although she thought she was fourth when she finished. Fedoskina, who set a world junior best of 1:27:35 for second in the World Cup, was disqualified when in third place just seven minutes from the finish, while defending champion Sidoti was a non-finisher due to stomach trouble.

Ivanova, disqualified after winning silver in 1997, climbed to the top of the walking tree in 2001 with a world best of 1:24:50 before winning in Edmonton. Winning by more than one minute was testimony to the high disqualification rate; a third of the starters were red-carded, though Ivanova herself never received a single warning despite leading all the way. Tsybulsckaya was a clear second and in third place Perrone and Platzer crossed the line together. Perrone was given the verdict over the Norwegian, who was disqualified anyway.

At her seventh attempt, Nikolayeva became World Champion. The 37 year-old had won a bronze medal (at 10K) in 1995, the year before becoming Olympic Champion. She won in Paris with a championship record and no warnings.

After the first two laps (5K), the Russian was a close third behind O'Sullivan and Perrone. By 10K, she had a 20-second lead which had more than doubled by 15K. O'Sullivan was a clear second from Gudkova, Giordano and Tsybulsckaya. The Belarussian came through for the bronze in a new national record. The 2001 winner Ivanova led out of the stadium but retired after six minutes clutching an injured hamstring.

Ivanova, holder of the fastest-ever time (an unratified 1:24:50 in 2001), and teenager Jiang were the early leaders. They passed 5Km in 21:43. Jiang dropped back and was disqualified before halfway, leaving Ivanova (42:54) with a yawning lead of more than a minute over Turova (43:59). Ivanova kept piling on the pace passing 15Km in 64:05 (another 21:11 split), before finishing in an official world record of 1:25:41, beating the Belarussian by 1:25. Feitór won the bronze medal with seven seconds to spare from the fast-closing Vasco. It had not been a good day for Olympic Champions, as 2004 winner Athanasia Tsoumeléka was disqualified when in fourth place with 4Km to go, while defending champion and 1996 Olympic Champion Nikolayeva failed to finish. The youthful-looking Ivanova, mother of a 15 year-old daughter, was the only one of the top six not to set a personal best, yet ironically her record netted her a \$100,000 bonus to go with the \$60,000 awarded to each individual winner in Helsinki.

In wet, hot (29°C) and humid (70%) conditions, Kaniskina dominated the event, leading Shemyakina by 20 seconds at 5Km (22:21), and almost doubling the margin to 44 seconds at halfway (44:33). Shemyakina was, in turn, almost half a minute clear of Vasco (45:53).

The order remained the same for the rest of the race, with Kaniskina slowing up only in the last quarter, covered in 23:23. She won by 33 seconds from Shemyakina, while Vasco closed up to finish only five seconds behind the number two Russian. Fastest of all in the closing stages was Plätzer, whose final 5Km took just 22:38. The European Champion from Belarus, Rita Turova, had two sub 1:28 clockings in 2007 and the European Cup title under her belt, but scratched from the event for medical reasons.

Kaniskina was the clear favourite, having won comfortably in Osaka in 2007, and Beijing 2008. The Russian followed the pace for a quarter of the race, reaching 5Km in 23:20. Shortly after she took the lead, covering the next two 5Km stretches in 21:38 and 21:24 to lead by almost a minute from Loughnane and Hong.

Loughnane won the battle for second, beating Liu by 12 seconds in 1:28:58, gaining 17 seconds on Kaniskina in the last quarter of the race. The temperature, which rose from 27° at the start of the race to 30° by the end, was the prime factor in keeping the time as the slowest winning effort since 1999.

In January 2015, the Russian Anti-Doping Agency banned Kaniskina because of anomalies in her biological passport. They announced a three-year suspension for her backdated to 2012. Kaniskina's results over two separate intervals in 2009 and 2011 were also annulled. Those periods included the Berlin and Daegu World Championships, but the IAAF subsequently filed an appeal with the Court of Arbitration for Sport regarding the "selective disqualification of results applied by RUSADA." While these proceedings continue (as at June 30, 2015), Kaniskina remains the World Champion of 2009 and 2011.

Aiming to be the first three-time winner in the event, Kaniskina stayed within the pack of 13 through halfway (46:16) before increasing the pace with a third 5Km of 21:47. At that point her lead over Kirdyapkina was five seconds. Liu, in third place just three seconds behind Kirdyapkina, got clear of the second Russian to clock 1:30:00, but finished 18 seconds behind the diminutive (1.60m/43kg) Kaniskina. In sixth place was Feitőr, the only athlete to have competed in 11 World Championships, her best position being third in 2005.

Kaniskina apparently broke the "curse" of the Daegu daily programme. The cover stars for the first four days of the competition – Steve Hooker, Usain Bolt, Dayron Robles and Yelena Isinbaeva – all failed to win medals. However, the Russian's world titles from both Berlin and Daegu are (as at June 30, 2015) both subject to ongoing proceedings with Court of Arbitration for Sport as noted above in the report for the 2009 World Championships.

The early pace was set by Rigauda and Drahotová, as 5Km was passed in 23:17, with Olympic Champion Lashmanova seven seconds behind. The gap was the same at halfway, with the 18 year-old Czech walker timed in 45:20, a second ahead of Rigauda, Lashmanova and Kirdyapkina. The Russian pair applied pressure over the next quarter

of the race, covering that section in 21:27 and accumulating a five-second lead over Rigauado at 15Km. In sixth place was the third Russian Sokolova, who then scythed through the field towards a bronze medal, but was disqualified on reaching the stadium.

Meanwhile, Lashmanova had broken away from Kirdyapkina with a 19th kilometre in 3:58 (1:19:20 pace), but lost a lot of her advantage when becoming confused about the location of the finish when inside the stadium. "The judges didn't really explain to us that we should do one more lap," was her excuse.

Behind the Russians, the battle for bronze was won by Liu, winning her third consecutive World Championship medal. For Lashmanova it was the final gold medal in an annual sequence of five, the previous four being World Youth 2009, World Junior 2010, European Junior 2011 and Olympic Games 2013. In January 2014 she tested positive for a performance-enhancing drug and was banned for two years.

With the United States team – minus Evelyn Ashford – missing the final after nearly dropping the baton, the GDR looked unbeatable.

However, in the final, Silke Gladisch committed a false start, and at the second time of asking Canada was away best. On the second leg, the GDR took control through Marita Koch and individual champion Marlies Göhr had a decisive lead on the final changeover.

The real battle was for the silver and bronze. On the outside lane, Britain's Shirley Thomas sprinted clear of Bulgaria and just held off Jamaica's Merlene Ottey for second place.

The GDR faced tough opposition from the USA, and their cause was not helped by the injury to Heike Drechsler the day before the heats. The World 200m record holder was unable to take her place on the team. The GDR won their heat but were precisely one second slower than the USA's time in the other preliminary race.

In the final, the GDR took the lead on the first leg through individual winner Gladisch. Oschkenat kept that advantage down the back-straight, but the United States went in front after a scintillating bend by the glamorous Florence Griffith. Pam Marshall extended the US lead on the anchor, running away from Marlies Göhr.

The United States' chequered record in this event continued when their baton was dropped on the first changeover in the heats. This meant that the great Evelyn Ashford missed her final chance for a World Championship medal. The title went to a country which had more than its fair share of relay troubles in the past – Jamaica.

Germany – after an easy 41.91 in the heats – were favourites to win the final. Breuer and Krabbe gave their team an expected lead. They lost some of this on the third leg, but their hopes of winning vanished when anchor runner Heike Drechsler started too early. She had to slow down and look round to collect the baton before the end of the zone. In the process, she lost the advantage she needed over the USSR and Jamaica. Privalova hit the front, only to be passed by the long-striding Ottey. After her disappointment in the individual events, this was one of the most popular victories in Tokyo.

Gail Devers was involved in a photo-finish yet again, but this time her faded dip was not enough to take gold. The Russian team, including three 200m finalists, led with the United States and Jamaica for the first half of the race. The Jamaicans fell back on the third leg while the leading two teams handed over together. The anchor leg brought Devers (lane 3) against Privalova (lane 4). Devers looked as if she might sprint clear, but the Russian refused to be beaten.

Just as in the individual final, the slow-motion replays and photo-finish displays did not identify the winner. Russia were eventually confirmed as the champions. "I was so nervous over the last 20m I shut my eyes," said Privalova. "I didn't know we had won and it seemed like hours rather than minutes before the result was announced."

In third place, Jamaica duplicated their winning time from Tokyo and Merlene Ottey won her 10th world championship medal.

This event was given an extra edge after Torrence's 200m disqualification, from which Ottey was the main beneficiary. The two would each run the anchor leg.

It was Germany who got the best start. The USA and Jamaica had excellent third legs and both Ottey and Torrence received their batons simultaneously. The USA had the sharper exchange, giving Torrence an advantage which she held despite a determined effort by Ottey. The Jamaican's silver was a record 13th World Championship medal.

"We are a great team despite the fact that we couldn't practise very much," said Torrence.

The fastest ever heat time of 41.52 by the Americans suggested the GDR's 1985 world record of 41.37 would be in danger in the final, but the squad had to be content with victory in history's second quickest time of 41.47. Anchored by Devers in 9.86 for her flying 100, the USA won by a good six metres over an Ottey-less Jamaica with France (sans Pérec) setting a national record in third place. The most disappointed team must have been that from Bahamas; their winning heat time of 42.19 would have sufficed for a medal but a bungled baton change put them down to sixth in the final.

Even with Miller and Devers taking the last two legs, the USA (deprived of the injured Jones) were out of the medals as the Bahamian quartette, including Pauline Davis in her seventh World Championships, sped around for a Commonwealth record of 41.92, a time bettered only by the GDR, USA and Russia – and that by a nation of little more than quarter of a million people. Thanks to a storming last leg by Arron, France snatched second place ahead of Jamaica, for whom McDonald won a medal for the fourth time at this event. The Canadian team was led off by Angela Bailey (37), a double sprint finalist at the inaugural 1983 World Championships.

Edmonton 2001

Final (Aug 11)

1, ¹⁴¹ Germany	42.32
2, ¹³¹ France	42.39
3, ¹⁷¹ Jamaica	42.40
4, ¹⁵¹ Nigeria	42.52

6, ¹⁸¹ Greece	43.25
7, ¹¹¹ Russia	43.58
¹⁶¹ United States	DQ (r41.1) (41.71)

Marion Jones collected what would have been her fifth world gold with ease, because her three team-mates combined to give her a lead of three metres over the other anchor leg runners. The United States time of 41.71 was the world's fastest since Athens 1997. Germany took silver ahead of France, for whom Sidibé ran a storming anchor to overtake the Jamaicans. It was France's first medal of the week.

In 2004, the teams in places 2-8 all moved up one after US lead-off runner Kelli White admitted doping violations going back to 2000. Her team was disqualified and the golds were awarded to Germany at the Berlin Golden League of 2004. Three years later it was Jones's turn to admit to cheating. A third US team member – Chryste Gaines – was also found guilty of a doping offence though unlike the other two not at the actual time of the Edmonton World Championships.

The first round previewed a titanic battle between the United States and France, whose teams each won with times of 42.03 and 42.04 respectively. Whereas the French were at full strength in their heat, the US had rested the original individual 100m gold and silver medallists, Kelli White and Torri Edwards. The plan had been to bring those two in for the final, but the prospect of disqualification was hanging over White because of her positive test for a stimulant after the individual 100m. Had she contested the relay, then her team's result would have been ultimately annulled following her later admission of drug-taking. Actually White withdrew herself from consideration, but the US team for the final was still strengthened by the insertion of Edwards on the anchor.

The draw put the USA in lane 4 with France in 6. The two teams were close throughout the race with neither making major mistakes. Edwards got the baton with a slight lead. French anchor Arron was a disappointed sixth/fifth in the individual final but was a renowned relay runner. To the crowd's delight she gradually caught then passed Edwards, giving France their second gold of the day just 20 minutes after that of long jumper Eunice Barber.

The United States were the fastest in the heats, clocking 42.16 in the first heat with the Bahamian team failing to finish after Chandra Sturupp was accidentally knocked over while waiting for the baton at the start of the backstraight. France edged Jamaica in the second race and Belarus won the final heat in 42.80, where Russia messed up their final baton change and did not finish.

Using the same squad in the final, the United States team was led off by Daigle, who ran even with Nesterenko, and a metre ahead of Jamaica. Lee then held Simpson, with Belarus losing ground. Barber extended the US lead to 3m, and 100m winner Lauryl Williams took the US team to a 2m win, as Veronica Campbell gained a metre on the last leg. Belarus held on to third place, as Christine Arron closed quickly to take the slow-starting French team from sixth to fourth on the anchor leg. Barber became only the second athlete to win gold in both relays, the other being Gwen Torrence in 1993. Allyson Felix was to follow soon. The winning time was identical to that of 2003.

The top teams were evenly-matched on the first leg of the final, with Williams and Brooks both clocked in 11.05 by the Biomechanics Team of IAAF and JAAF. Felix opened up a gap of a metre on Stewart, and the US lead was increased on the third leg as Mikele Barber gained a further metre on Simone Facey. Edwards (10.21) held off Campbell (10.06) by half a metre, though Campbell was closing in rapidly on the American at the finish. Britain led the chasing group at the final exchange, but Gevaert took Belgium from sixth to third with a stirring anchor leg of 10.17.

In the Beijing Olympics neither of the favoured teams, the USA and Jamaica had won a medal. The bad luck continued for the US despite having clocked 41.58 – the best time of the 21st century – two weeks earlier. This time, their third-leg woman Muna Lee suffered an unfortunate injury at the point of changeover.

The Jamaican squad – which controversially omitted Veronica Campbell-Brown – clocked a snappy 41.88 in the heats but were not as quick in the final though Facey was slightly ahead of the Bahamas at the first changeover. Fraser, the 100m winner, added a metre to the Jamaican lead ahead of Sturupp, and Bailey. Kerron Stewart began with a 2m lead which she maintained over Debbie Ferguson-McKenzie. Germany held off Russia and Brazil for the bronze medal.

Daegu 2011

Final (Sep 4)

1, ¹⁴¹	United States	41.56

7, ¹²¹	Brazil	43.10
¹³¹	Trinidad & Tobago	DQ (r41.1) (42.58)

Jamaica took an early lead with Fraser-Pryce, and the Jamaicans handed over a metre to the good. Felix gained slightly on Stewart, and a better changeover gave the US the advantage. Myers handed to Jeter with nearly 2m advantage over Campbell-Brown, and the 100m champion lost a small portion of that to finish in 41.56, the eighth-fastest ever. Behind them the Ukraine (42.51) were able to hold off Trinidad (42.58) for the bronze medal, though the latter were disqualified when a doping violation of Semoy Hackett was confirmed. This turned out to be just the third time in nine races in the 21st century that both Jamaica and the USA had legitimately finished in a global 4x100 metre championship. Felix collected a record eighth world gold medal (no other woman had more than five), and put her in second place on the list of all medals won with 10 after the 14 of Merlene Olton.

Moscow 2013

Final (Aug 18)

1, ¹⁶¹	Jamaica	41.29
2, ¹⁵¹	United States	42.75

3, 131	Great Britain & NI	42.87
4, 111	Germany	42.90

6, 171	Canada	43.28
141	France	DQ (r170.7) (42.73)
181	Brazil	DNF

The heats saw the possibility of a titanic battle with Jamaica taking the first race in 41.87, followed by the USA, who won the second heat in 41.82. Second in those heats were France (42.25) and Brazil (42.29). Of the four teams, only one would have an unsullied race in the final two hours later. Over the first two legs Jamaica and USA had a great battle, with Russell for Jamaica leading Tarmoh, and then Anderson coming back at Stewart after a poor Jamaican baton pass. The race was lost by the USA on the second changeover, when Gardner had to virtually stop to receive the baton after starting far too soon. Jamaica were already 10m down the track when the US baton pass was completed, and with Fraser-Pryce on the last leg, the gold medal was a Jamaican certainty.

The USA were in sixth place at the last changeover, but fought their way to third, which became second when – after having received silver medals – France were belatedly disqualified after a zone infringement at the second changeover. Britain were promoted from fourth to bronze, meaning that their lead-off runner Dina Asher-Smith (17) became the third youngest-ever World Championship medallist after Sally Barsosio (1993 women's 10,000m) and Darrel Brown (2001 men's 4x100m relay).

4 x 400 Metres Relay

Helsinki 1983

Final (Aug 14)

1,	GDR	3:19.73
2,	Czechoslovakia	3:20.32
3,	USSR	3:21.16
4,	Canada	3:27.41
5,	United States	3:27.57
6,	FRG	3:29.43
7,	Bulgaria	3:30.36
8,	Romania	3:35.61

A third Helsinki gold medal for Jarmila Kratochvílová looked a distinct possibility, especially as the GDR would apparently be without Marita Koch, who had not raced at 400m all year.

Czechoslovakia, the GDR and the USSR dominated the final from start to finish. By putting individual silver medallist Kocembová on the first leg, the Czechs expected to get a big lead and this they managed when a terrific 48.93 split gave her team an advantage of 15m. The two Czech "weak links", Matejkovičová and Moravčíková, followed.

Matejkovičová lost all that advantage on the second leg as the GDR, through Sabine Busch, moved ahead. Then came the GDR's masterstroke: the unexpected insertion of Koch on stage three.

Less than three hours after taking the 200m title, Koch sped away from the opposition to open up a 25m gap with a split of 48.55. Some of this ground was, however, lost on the final changeover. Rübsum started a little early and Koch had to lunge three times before the baton was successfully passed. The USSR were now a clear second.

The GDR's lead proved too much for Kratochvílová, who nevertheless moved into second place with a brilliant 47.75. The winning time was the fourth quickest ever, and might well have been a world record had it not been for the fumble on the last exchange.

"That last race was the hardest," said Koch. "I could feel every one of the 11 races I had already run."

Sabine Busch claimed her third World Championship gold medal when she comfortably held off individual champion Olga Bryzgina on the anchor leg.

The GDR looked vulnerable without Marita Koch and were only fifth after the first changeover. However, Emmelmann's stint of 49.1 followed by Müller's 48.64 gave Busch a 15m advantage at the last changeover. The United States were an isolated third.

The United States opened up a big lead on the first leg but were reeled in by the Soviet Union. Thanks to a sub-49 leg by Olga V. Nazarova, Bryzgina – the reigning Olympic Champion – took over level with Lillie Leatherwood on the anchor leg. The American proved to be no match for Bryzgina, who won her third (and the USSR's final) World Championship gold.

Germany's bronze medal was due to the inclusion of double sprint champion Krabbe on the second leg. She clocked 49.8 to bring her team up from sixth to third. They lost this place temporarily to Great Britain before Breuer produced the fastest split of the day on the anchor leg.

The 500m stagger often hides the quickest runners on the first leg of a 4x400m relay. Not so this time because sprint star Gwen Torrence produced the astonishing time of 49.0 to give the United States a huge lead. With the individual 400m gold and silver medalists to follow, the USA were never in danger of being caught, even though another sprint specialist, Irina Privalova, ran 48.47 for Russia on the anchor.

There had been some debate behind the scenes about the composition of the US relay team. Gwen Torrence and hurdle stars Kim Batten and Tonja Buford were being considered by the coaching staff, but the main relay squad rejected this proposal.

In the event, the US won easily. Britain led at the first changeover before Russia and the USA moved quickly. On both the second and third legs, the Russian runner started clearly before fading and succumbing to their US rivals. A 49.56 anchor by Miles secured the US victory. Hurdles medalist Hemmings overtook the Russian anchor to finish second for Jamaica.

The second fastest split of the race was 49.57 by Cathy Freeman, who brought Australia from a distant sixth to fourth, then third when Jamaica were disqualified for a lane infringement.

Races don't come much more exciting than this one as four teams were still in contention at the last change-over. As the runners entered the final straight it was Alekseyeva of Russia leading from Richards of Jamaica, Miles-Clark of USA and Breuer of Germany. Based on form in the individual 400m it looked as though Richards (2nd) and Miles-Clark (3rd) would fight it out, as indeed they did, but for silver. It was Breuer, only fourth in the 400m but always a notch better in relays, who dug deepest. She powered past a struggling Alekseyeva on the inside and stole a march on the other two to complete her leg in 48.69. Having been suspended at the time of the last two editions, these were her first World Championships since, as a junior, she finished second in the 400m in 1991. Miles-Clark ran her anchor in 49.19 and Richards 49.45.

The USA led narrowly from Russia for the first two legs thanks to Reid and Malone-Wallace, but Kotlyarova took the Russians into a four metre lead on the third stage and Nazarova, with a very mature run, just held off Miles-Clark on the anchor. Rücker and Breuer (with the race's fastest split of 49.04) on the final two legs hoisted Germany into third place, only a stride or two behind the leading duo. The highly rated Nigerians did not show up for their heat.

Jamaica, a country with a share of bad luck in World Championship and Olympic relays, benefited from a terrible mistake by the United States anchor runner. The race started well for the USA when Miles-Clark – seeking a fifth successive world relay medal – opened up with a 50.2 first leg. Hennagan moved further away with a 49.7 on the second leg, and Collins held a 10m advantage over Parris, halfway through the third stage. Parris herself was 10m up on the Germans, and the Jamaican then closed slightly on Collins.

The US anchor runner Suzianne Reid would have wanted a cushion over her Jamaican counterpart, who was the World and Olympic silver medallist Lorriane Fenton. Collins delivered a 7m advantage, then suddenly Fenton emerged as the clear leader on the first bend. The Unfortunate Reid had received the baton safely, but then dropped it when passing it from her left to her right hand. It bounced behind her onto the infield and by the time she retrieved it, 40m and a certain medal had been lost. Jamaica went on to win in a Commonwealth record of 3:20.65. Observers felt that without the dropped baton, there would have been a great race between Fenton and Reid. A month later at the Goodwill Games in Brisbane, the same teams clashed again with the US defeating Jamaica 3:24.63 to 3:24.87.

Final (Aug 31)

1,	United States	3:22.63

The United States made amends for their 2001 disappointment; this time it was the opposition who suffered at the final changeover. European Champion Zykina put Russia in front after leg one. Pechonkina increased that lead but the US were still contention at halfway, while Jamaica were also within range. On the third leg it was 200m champion-elect Kapachinskaya versus the hugely experienced Miles-Clark. The American closed to within 2m. Kapachinskaya exchanged to Nazarova, but the incoming Russian was momentarily blocked by the Senegalese anchor Thiam, who strolled illegally from the waiting echelon into lane 1 before her incoming team-mate had arrived. An unobstructed exchange between Miles-Clark and Sanya Richards popped the US team into a lead of 2m.

One felt that the American – still a junior – might succumb to Nazarova (fourth individually) and/or individual silver medallist Fenton who ran a brilliant first 300m to make up around 10m on the leading pair. However the 18 year-old ran a well-judged leg to hold on to her lead. Fenton could not quite get past the Russian despite clocking far and away the fastest split of the race, 49.38.

Russia won the first heat in a world leading 3:20.32, with Krasnomovets and Antyukh on the first two legs sealing their places in the final with legs of 50.1 and 49.4. The USA won the other heat in 3:23.38 and a great final was in prospect, except that lead-off runner Suziann Reid ran out of her lane, dooming her team to disqualification as did Moushami Robinson, who illegally switched position while waiting to start the third leg. One felt pity for Reid as she had been the one to drop the baton four years earlier in Edmonton.

Russia's Pechonkina started slowly in the final, but led Jamaica by a metre at the first handover. Krasnomovets gradually extended the lead in the last 100m of the second stage to 5m with a 49.7 split, as Novlene Williams ran 49.92 for Jamaica, some 10m ahead of Britain and Poland. The margin was 20m after Antyukh's leg, with Jamaica and Poland neck and neck. Pospelova finished 20 metres clear of Jamaica, running the same time as Lorraine Fenton (50.42), with Britain just holding off Poland for the bronze medal.

Shericka Williams gave Jamaica the lead in the final, surprisingly heading Britain's new World Champion Ohuruogu 50.5 to 50.6. The tenor of the race changed on the second leg. Lloyd kept Jamaica in front till just before the 600m point, when Felix went past. The double 200m World Champion had covered her first half in 22.2, and she kept going to record 48.0 for her leg, giving the USA a 10m advantage they would maintain to the finish. Jamaica were four metres clear of Russia and Britain were a similar margin behind the Russians. Veshkurova and McConnell ran the fastest third legs, leaving Jamaica just one metre ahead of Russia at the final take-over. Sanya Richards kept the USA clear of trouble with a well-judged 49.07 anchor. Novlene Williams's 48.93 was enough to hold off Sanders for the silver medal, despite the Briton's 48.76 leg which took her past Antyukh just before the finish. The US time was the fastest in the championships since 1993.

Dunn gave the USA the lead in the final with a 50.5 opening leg, 2m clear of Kapachinskaya, with Jamaica a further 5m behind. As she had done in Osaka and Beijing, Allyson Felix then broke the race open, extending the USA lead to 10 metres with a 48.8 leg, as Firova (49.9) was almost caught by Williams-Mills's 49.6. Demus maintained the USA lead with a 50.14 leg, while Russia stayed 3m clear of Jamaica. Richards then ran the fastest lap of her career – 48.44 to give the USA a 25m win, while Shericka Williams outran Krivoshapka by a full second to win jamaican silver. For Felix, this was a sixth world gold.

Daegu 2011

Final (Sep 3)

1,	United States	3:18.09
2,	Jamaica	3:18.71
3,	Russia	3:19.36
4,	Great Britain & NI	3:23.63
5,	Belarus	3:25.64
6,	Czech Republic	3:26.57
7,	Nigeria	3:29.82
	Ukraine	DQ (r41.1) (3:23.86)

In the final Richards-Ross broke the race open on the first leg, clocking a magnificent 49.4, the fastest run from the gun by a woman in Daegu. Whyte for Jamaica was second six metres behind, just ahead of Krivoshapka (50.3). On the second leg, Felix (49.2) extended the lead slightly over Prendergast. Beard and Williams-Mills both ran 49.84 for their legs, with Jamaica now six metres ahead of Russia.

McCorory anchored the USA in 49.52, a leg which featured a fast first half and a laboured last 50m, but she got home five metres clear of Shericka Williams who ran 49.22, the same time as Kapachinskaya in third. For Richards-Ross, it was a record fourth 4x4 gold.

Moscow 2013**Final (Aug 17)**

1,	Russia	3:20.19
2,	United States	3:20.41
3,	Great Britain & NI	3:22.61
4,	France	3:24.21

7,	Romania	3:28.40
	Italy	DQ (r170.6) (3:27.39)

The United States were missing Allyson Felix, such a key contributor to their previous victories, but unavailable following her hamstring tear in the Moscow 200m. Nevertheless the defending champions opened up a lead of three metres on the first stage, which Hastings extended to 10m before Firova gained all of the lost ground in the finishing straight. On stage three, Ryzhova put Russia clear by a couple of metres. Krivoschapka was able to pull further away on the anchor. With 200m remainin, her lead was a seven metres, but McCorory pulled back all but two in an enthralling last 100m. Britain were third, while potential medallist Jamaica were disqualified in the heats when Whyte ran out of her lane on the first leg.

Russia's win enabled the hosts to end the championships on top of the Moscow gold medal table with seven golds to six by the United States (as at June 30, 2015).

IAAF WORLD ATHLETIC SERIES RESULTS

This section contains the names of the first three finishers at every IAAF World Athletic Series event, plus further IAAF events. The order in which these competitions are listed is that defined in the IAAF's World Athletics Series Technical Regulations. The IAAF World Championships (see from page 79 for full results) take first place in that order.

World Cup Teams**MEN**

Britain's men's team were disqualified from the 2002 World Cup because their entry for the meeting had been based on performances by Dwain Chambers at that year's European Cup which were subsequently annulled because of a doping violation. However, the individual placings by British team members in Madrid were allowed to stand, though are regarded by the IAAF as non-scoring.

* This race was originally won in 10.75 by Marion Jones USA who in 2008 admitted to doping violations and was disqualified. Original silver medalist Katerina Thanou GRE has not been upgraded to gold medal status and remains silver medalist alongside Tanya Lawrence JAM who was promoted from bronze. In December 2009, the IOC spokesman Mark Adams explained that Thanou "disgraced herself and the Olympic movement by avoiding three doping tests... she admitted anti-doping violations when she accepted a two-year suspension from the IAAF. The rankings in the actual race are a matter for the IAAF, and they are changed, but the actual awarding of any medal is not a right. Therefore, in this case, it will not happen. It is felt that with her conduct, she did not deserve to be honoured with this recognition."

Crystal Cox, who ran in the heats for the winning team in 2004, was disqualified for doping violations dating back to November 2001 and her personal medal was withdrawn. Despite this, in June 2013, the IOC decided not to re-allocate the other medals awarded in this event

Olympic Games Medal & Placing Tables

Here, points are awarded for the first eight placings in each event, with eight for Olympic gold down to one for 8th place. For ties, points are divided between the countries involved, so that for instance equal second place by two athletes is worth 6.5 points for each country. Points are only awarded for athletes who finished in the final, none are given to those who did not finish or were disqualified. As we go to press there are a number of doping cases in progress and others which have been partially concluded. We have strived to include the latest news (up to June 30, 2015), and these tables incorporate the following outcomes.

The multiple individual disqualifications of Marion Jones in 2000 and 2004 are integrated, including the case of the 2000 women's 100 metres where the IOC determined that two silvers and no gold would be awarded as noted on page 406. However, as further detailed on page 411, the US women still hold their relay gold (4x400m) and bronze (4x100m) medals from Sydney, in spite of Jones's contributions to both efforts. Similarly, for the 2004 women's 4x400m, the IOC ruled in 2012 that the US women were not to be disqualified despite the doping violation of heat runner Crystal Cox. Fully adjusted are the 2000 men's 4x400m (originally won by the USA) 2008 men's 1500m (Rashid Ramzi BRN) and the 2012 women's shot put (Nadezhda Ostapchuk BLR), where the winners were disqualified and all other finalists moved up a place.

In 2012, re-tests of samples from Athens 2004 led to four further disqualifications – Yuriy Belonog UKR (shot put gold), Ivan Tikhon BLR (hammer throw silver), Svetlana Krivelyova RUS (shot put bronze) and Iryna Yatchenko BLR (discus throw bronze). The IOC confirmed the logical upgrades for the athletes finishing behind Belonog and Yatchenko, but the medals won by Tikhon and Krivelyova have not been re-allocated as at June 30, 2015. A further failed re-test from the 2005 World Championships ultimately led to a lifetime ban for Andrei Mikhnevich BLR. He was stripped of his 2008 bronze medal in the shot put, which in April 2014 was passed to Dylan Armstrong CAN.

In May 2015, the IOC confirmed that because of Tyson Gay's doping transgression, the United States were to be stripped of the 4x100m relay silver from 2012. The other finalists originally finishing in places 3-8 were all upgraded. These tables show a total of three unallocated medals across the games of 2000 and 2004, as well as the extra silver (awarded to Tayna Lawrence JAM) for the 2000 women's 100 metres.

Three main tables here show the original medal order for the 2012 women's Discus Throw (Perković CRO, Pishchalnikova RUS & Li CHN). As at June 30, 2015 the IOC have yet to confirm the IAAF's retroactive disqualification of Dayra Pishchalnikova's results dating back to May 2012. For this case, an additional set of placements is provided on page 417, reflecting the medal and placing order without Pishchalnikova, and with the women originally finishing in places 3-9 all upgraded.

* The following teams were initially disqualified by the IOC (in April 2008) for a doping violation by team member Marion Jones, but in July 2010 were reinstated as medalists (without Jones) after a successful appeal by Jones's team-mates to The Court of Arbitration for Sport

USA	4x100mR	bronze	42.20
USA	4x400mR	gold	3:22.62

€ In December 2009 the IOC confirmed that this medal would not be reallocated to the original silver medalist Katerina Thanou GRE as "It is felt that with her conduct, she did not deserve to be honoured with this recognition."

WORLD AND CONTINENTAL RECORDS

(as at June 30, 2015)

ABBREVIATIONS & KEY (See also page 7)

IAAF = IAAF World Record; **IAAF-J** = IAAF World Junior Record; **MX** = Mixed race (men and women together)

W = Unratified World Best; **WO** = Women-only race; **WJ** = Unratified World Junior Best

WY = Unratified World Youth (under-18); **Best**; **W35** = World (Masters) over-35 best; **W40** = World (Masters) over-40 best

AFR = Africa; **ASI** = Asia; **CAC** = Central America & Caribbean (includes the countries with borders to Caribbean though not USA)

Com = Commonwealth; **EUR** = Europe; **NAM** = North America; **OCE** = Oceania; **SAM** = South America

NOTES

This section shows world, area, Commonwealth and age records (where known) for all events on the world record lists shown under IAAF rules 261 (world records) & 262 (world junior records)

A = made at altitude of 1000m or higher; a = aided road course according to IAAF rule 260.28 (separation between start and finish points more than 50% of race distance or the decrease in elevation greater than one in a thousand; South America do recognise additional marks in this category); ^a = awaiting ratification but otherwise valid; h = hand timing; ! = timing by photo-electric cell; # = not officially ratified; X = unrated due to no doping control; † = not timed officially

Where relevant, the pace is given for world record performances. Where known, the time given is that of the runner who set the record, rather than the pacemaker

From 1998, IAAF Rule 260.18a (formerly 260.6a) was revised to allow world records to be set at a facility "with or without a roof" (in other words, indoors or outdoors); Accordingly, indoor marks superior to outdoor records and set since 1998 (not 2000 as originally noted) are listed on these pages in addition to outdoor bests

Included are the individual road events which were given world record status from January 1, 2004. These feature many unrated, unofficial and unconfirmed marks for three main reasons. Firstly, most of the IAAF's area federations have not yet established records at these events. Second, several of the world's major long distance races do not take official times en-route for runners and finally – though the final distance not be regarded as aided (see note above) – the intermediate distance may well be. It should also be noted that some federations have ratified road records even though the marks were set on courses such as Boston which do not fulfill IAAF criteria. Any comments and amendments to these records will be gratefully received by the editor.

The following websites have been references for the area records: **Africa**: www.webcaa.org; **Asia**: athleticsasia.org; **Europe**: www.european-athletics.org, they do not yet recognise many men's road marks; **South America**: www.consudatle.org; **United States**: www.usatf.org; **North/Central American & Caribbean**: www.athleticsnacac.org – though not updated since 2011; **Central America & Caribbean**: www.cacacathletics.org – though page no longer available. For **Oceania**, www.athletics-oceania.com did not publish a record list as at June 30, 2015. Therefore, the marks listed here for Central America & Caribbean and Oceania are the best legitimate marks known by the editor

* The birthdate of Kenneth (Kiprop) Kipkemoi KEN was misreported as August 5, 1994 but is apparently August 2, 1984, so his 59:11 Half Marathon (den Haag, 11 Mar 12) is not shown here as a world junior best. Similarly Dennis (Kipruto) Kimetto (Koech) KEN was variously reported to have been born on November 13, 1993 or January 22, 1994, but the compiler understands that January 22, 1984 is his correct birthdate so his 59:14 Half Marathon (Berlin, 1 Apr 12) should also not be regarded as a world junior best

Decathlon

From 2010, IAAF rule 260.27 stated that – for record purposes – the average wind speed of the three affected events shall not exceed plus two metres per second. The ruling is not retrospective, but if it were then the affected marks are shown with the superscript “”.

NATIONAL RECORDS

These lists mainly include official records as recognised by various national federations, with any superior statistically valid marks which are not recognised listed in footnotes. In some cases, federations recognise as records illegal performances, such as wind-assisted sprints, javelin throws with old implement specifications, combined events scores on outdated tables and in the case of USATF, one performance by an athlete while proved guilty of a doping violation. In such cases the best statistically valid mark is given in the main list, though the ratified mark does appear in the footnotes.

No sprint or jump marks obtained with a following wind of more than 2 m/s are included, nor are any which were definitely unsubstantiated. However, performances in combined events which would under post-2010 IAAF rule 260.27 be regarded as wind-assisted are shown as legal as the rule change is not retrospective. Where known, all marks set up to June 30, 2015 are included. Those set in 2015 are given in bold characters.

Winfried Kramer

NATIONALITIES

Caribbean and Pacific athletes with double nationality have been listed according to their eligibility at international championships, but such decisions are open to debate. Tahiti, formerly French Polynesia, accepts records by athletes who are of non-Polynesian origin and who were non-permanent residents. Ex-USSR Republics and former Yugoslav Republics accept records affiliated to domestic clubs. Vanuatu has decided to eliminate records by non-citizens before independence.

AUTOMATIC TIMES

Following the policy of the IAAF, automatic times are given to hundredths of a second wherever possible. For sprint events, manual marks are listed only if they are least 0.24 seconds better than the automatic record. Please note that these marks are given for information only and may not be officially recognised by the respective federations. For 400m and 400m hurdles, automatic records only are given.

FOOTNOTES

These are included for each event to explain the decisions of the compilers and to present problems they felt unable to solve. Asterisks are given against records where there is a relevant footnote for that country.

RECORDS FOR SUSPENDED NATIONS

Records are listed for Cambodia and South Africa even though the performances may have occurred while those countries were suspended by the IAAF.

EQUALLED RECORDS

Please note that some records equalled by the same athlete or country may not have been included due to the policy of the federation.

ILLEGITIMATE MARKS

Some countries have chosen to ratify records which the IAAF would regard as illegal because of doping violation or wind assistance. These have been relegated to footnotes with the best legitimate mark given in the main list. However, ratified records set by women in mixed races are shown in the main list with the best non-mixed mark footnoted.

IAAF RULE 260.18.a

The 1998 change to this rule (formerly 260.6a) – which allows indoor marks to be recognised as “absolute” records – has been reflected in these lists, though it should be noted that most federations have not taken account of the revision so far. This creates some strange situations. The Russian men’s high jump record is 2.41 by Ivan Ukhov outdoors, but the EA have accepted Ukhov’s indoor 2.42 as a European record. Those who have are AUS, DOM, ESP, EST, FRA, GRE, LTU, NZL, PLW, POL, PUR & SLO. For other federations, where relevant, separate listings are given of those indoor performances (set both before and after 1998) which are superior or identical to the recognised mark.

IAAF RULE 260.27

The 2010 change to this rule means that a combined event performance is regarded as wind-assisted – for record purposes – if the average assisting wind velocity for the three affected events exceeds two metres per second. Previously it was the case that the score would be legal if that condition applied and/or none of the three relevant following “winds” exceeded four metres per second. The narrowing of the criteria means that some existing records (e.g. Larisa Nikitina’s Russian Heptathlon record of 7007, with winds of 1.4, 1.1 & 4.0) would be judged as windy under today’s rule. It has been determined that this rule change should not be applied in retrospect, so such marks are shown as legal in this section. Note also that in March 2010, the IAAF Council added a caveat to the rule confirming that marks which are windy only under the new ruling – though not acceptable as records – can still count as qualifying marks for championships.

Confusion has inevitably been caused by these changes, so now we have a wind-assisted Trinidadian decathlon record which was mistakenly ratified against IAAF rules of the time but would have been okay under the current ruling. Similarly there was a 2009 mark which cannot be regarded as the Antiguan record because it was windy under the old rule, but would be perfectly valid nowadays.

Readers are invited to send any corrections to Winfried Kramer (Fax: 49 - 6821 932101; email: kramer@saar.de) or any other compiler (see page 6 for all compilers’ addresses)

PROGRESSION OF OFFICIAL WORLD RECORDS

This section lists progressive world record performances as ratified by the IAAF or the Fédération Sportive Féminine Internationale (FSFI), which was absorbed by the IAAF in 1936. Though the IAAF was founded in 1912, its first list of world records contained marks which were set as early as 1870.

AUTOMATIC TIMING

From 1975, the IAAF accepted separate, automatic electrically timed records for events up to and including 400m. From 1977 only automatic timing was considered for world records in these events. Automatic timing to hundredths was accepted for events up to and including 10,000m from 1981. Where known, unofficial automatic times are given – in a smaller typeface – next to the ratified “tenth” time. Ratified automatic times are always given in larger type.

INDOOR WORLD RECORDS

From 1998, IAAF rule 260.18a (formerly 260.6.a) was amended to state that world records (as opposed to indoor world records) can be set at a facility “with or without” a roof. So far only one event – the women’s pole vault – has been affected by this change, which was not applied retrospectively. Therefore world indoor records set in 2000 and 2001 by Stacy Dragila and Svetlana Feofanova are regarded as “absolute” and appear in these lists.

A similar rule change occurred in the late 1980s, when the 2.42 high jump of Carlo Thränhardt (FRG), made indoors, was accepted as equalling the existing world (outdoor) record. However after that version of the ruling was rescinded, this mark was subsequently deleted as a world record and is not included in this section.

ROAD RECORDS

From January 1, 2004 the IAAF has recognised official world records at 10Km, 15Km, 20Km, Half Marathon, 25Km, 30Km, Marathon, 100Km, Road (Ekiden) Relay and also the 20Km and 50Km Walks. Progressions are also given here for best performances in the road running and walking events prior to their acceptance as official world record events.

OMISSIONS

Except for road events, excluded from this section are unratified marks, performances which were originally accepted as world records then annulled, and indoor-only world records.

The data in this section is based on “Progression of World Best Performances and Official World Records”, edited on behalf of the IAAF originally by Richard Hymans and then Imre Mátraházi.

Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. Listed is the progression of world bests prior to official acceptance and superior unratified marks thereafter. Indented are marks set on uncertified or aided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Records ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances

BEST THREE BY YEAR 1963-2014

These listings show the top three performers in championship events, the Mile and the 3000m each year for the past 52 years. Up to 1977 for sprints, electrically and hand-timed marks have been mixed using the then accepted adjustments of 0.24 for 100/200m and 0.14 for 400m. So for example, Hayes's 10.06 is ranked above Esteves's 10.0 hand in 1964. Times for 120 yard, 440 yard and 880 yard races have been amended respectively by margins of 0.03, -0.26 and -0.6 in order to allow meaningful comparisons with their metric equivalents. Times which have been adjusted in this manner are asterisked. For the jumps and shot put, indoor marks are shown.

Heptathlon

From 2010, IAAF rule 260.27 stated that – for record purposes – the average wind speed of the three affected events shall not exceed plus two metres per second. The ruling is not retrospective, but if it were then the affected marks are shown with the superscript **.

Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. From November 1, 2011 the IAAF specified that “world records in road races for women [were] to be recognised in women only races”, though before that rule was enforced it was decided not to apply it in retrospect, so all existing world records (set in mixed races) remained standing. From November 1, 2013 it was agreed that the the IAAF would additionally ratify the best marks in single gender (i.e women only) races. Listed is the progression of world bests prior to official acceptance and superior unratified marks thereafter. Indented are marks set on uncertified or unaided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Record ratified by the IAAF are shown in bold.

+ denotes marks set en route to longer distances.
