**LIRR CAPITAL PROJECTS**

**Project:** Purchase of Electric Fleet

As part of the LIRR's program of increasing the overall size of its rolling stock fleet and upgrading the M-3 component of the fleet (PN1L) the LIRR will implement a Life Cycle Maintenance (LCM) program. This is anticipated to have start-up costs for material items ranging from \$3.0 million to \$5.0 million during the transition period. The rail road is now in the process of determining these costs. In addition, as the overall size of the fleet increases there will be increases in the annual maintenance and operating costs. These costs will be determined as part of LCM Transition Team.

**Project:** Purchase of M-7s -- See above

**Project:** M-3 Overhauls -- See above

**Project:** Jamaica Station and Air Train Complex

Beginning in December 2003 the Air Train Complex will open in phases until achieving full beneficial use in 2006. Certain elements of the Air Train Complex facility are being managed by the NY/NJ Port Authority and the LIRR will be making payments to the PA for cleaning and maintenance costs. In addition, the complex includes the Jamaica Central Control Facility which the LIRR will be responsible to maintain and operate. The full annual costs are projected to be \$1.3 million.

**Project:** Arch Street Shop and Yard

The shop facility will achieve beneficial use at the end of 2004. The Long Island Rail Road is pursuing an agreement to lease the facility to Bombardier. Bombardier would use the facility to do warranty and modification work on the new M7 cars. During the term of the lease, Bombardier would cover maintenance and operating costs. After the expiration of the lease, the LIRR would incur the projected annual maintenance cost of approximately \$.8 million. There are no operational costs projected until after 2007.

**MNR CAPITAL PROJECTS**

**Project:** Purchase of Electric Fleet (180 M-7 cars)

Annual impact starting in 2005 is \$1.0m. 2006 (only) impact increases to \$3.4m because of a one-time disposition cost for ACMUs and M1s.

**B&T CAPITAL PROJECTS**

B&T does not anticipate any of these completed projects will result in operating impacts of a \$1 million or more.
