

Speed Skating

Complete history list of World Records

recognized by ISU as of **July 1st, 2009**

Compiled by Magne Teigen, WSSSA and Tron Espeli, ISU Speed Skating Technical Committee

New WR in the season 2008/09 in red

In addition to a chronological listing of all results recognized as World Records by the ISU throughout the history of the International Skating Union, the list includes additional information on the circumstances of the results:

- * Type of skates used, distinguishing between "traditional" skates and "klap-skates".
- * Category of track, distinguishing between the following categories:
 - open-air ice rinks (out-door tracks) vs. covered ice rinks (in-door tracks)
 - Artificially frozen ice vs. naturally frozen ice
 - Altitude of the venue, distinguishing between 3 categories (high altitude, medium altitude, lowland).

This additional information is presented according to the following legend:

- * A result marked with * means that the result was achieved with the new kind of skate ("klap-skate") with moveable blades, which was introduced at the international level during the 1996/97 season, and quickly replaced the conventional speed skate design with fixed blades.
- * When the name of the venue (track) is preceded by i it indicates that the result has been achieved on a covered (indoor) speed skating track.
- * When the name of the venue is preceded by n - , it indicates that the result has been achieved on a speed skating track with naturally frozen ice. When no such indication is given, the result has been achieved on a speed skating track with artificially frozen ice.

* **Categories of altitude:**

LL	Lowland	Venue below 300 m above sea level
HA	High altitude	Venue at least 1000 m above sea level
(no indication given)	Medium altitude	Venue between 300 m and 1000 m above sea level

A. World Records for Men

500 meters

Dan Jansen	U.S.A.	35,92	LL	i - Hamar	4.12. 1993
Dan Jansen	U.S.A.	35,76	HA	i - Calgary	30. 1. 1994
Hiroyasu Shimizu	Japan	35,39	HA	i - Calgary	2. 3. 1996
Hiroyasu Shimizu	Japan	35,36 *	HA	i - Calgary	28. 3. 1998
Hiroyasu Shimizu	Japan	34,82 *	HA	i - Calgary	28. 3. 1998
Jeremy Wotherspoon	Canada	34,76 *	HA	i - Calgary	20. 2. 1999
Jeremy Wotherspoon	Canada	34,63 *	HA	i - Calgary	29. 1. 2000
Hiroyasu Shimizu	Japan	34,32 *	HA	i - Salt Lake City	10. 3. 2001
Joji Kato	Japan	34,30 *	HA	i - Salt Lake City	19.11. 2005
Kang-Seok Lee	Rep. of Korea	34,25 *	HA	i - Salt Lake City	9. 3. 2007
Jeremy Wotherspoon	Canada	34,03 *	HA	i - Salt Lake City	9.11. 2007

+) The previous World Record (38,9 by H. Börjes) had been recorded with manual timing and thus with decimals of a second only (it was then not yet mandatory that a result had to be recorded with automatic timing to be recognized as a World Record). The result 38,99 of V. Muratov was recorded with automatic timing, and since the decimal (when disregarding the hundredths of the second) was the same as for the current World Record, it was recognized as a World Record.

2x500 meters

Hiroyasu Shimizu	Japan	68,96 *	HA	i - Salt Lake City	10. 3. 2001
		(34,64 + 34,32)			
Kang-Seok Lee	Rep. of Korea	68,69 *	HA	i - Salt Lake City	9. 3. 2007
		(34,44 + 34,25)			

Jeremy Wotherspoon	Canada	68,31 *	HA	i - Salt Lake City	15. 3. 2008
		(34,26 + 34,05)

---------------	----------	--	----	-----------	-----------------

This 4 distances combination was taken off the ISU competition by decision at the 1955 ISU Congress, and replaced with the combination 500, 1500, 1000 and 3000 meters (see above), which was then introduced as a World Record event in the 4 distances combination.

At the 1982 ISU Congress, when the 5000 meters was reintroduced as a World Record event, a new 4 distances combination (total points over 500, 3000, 1500 and 5000 meters) was introduced as a new World Record event.
